My Thread
https://hackforums.net/showthread.php?tid=4809695

Changed his name to:
Be Fair To Me

Also is now leaking my ebook:

Basically I make an ebook...

He buys it and tries reselling same exact thing.

I pmed 2 of the people he gave the vouches too but they said they wanted to remain anonymous so idk what to do... they both said there the same. I guess I could pm a mod screen shots.

Proof of him buying my book (He Even left a Review):

Am I missing anything please help I never had to report anyone before.

He also locked his thread which is more evidence

?Brushes's method requirements

Avatar Ang's method requirements

As you can see, they are both the same. Avatar Ang's text contains question marks. My guess is that he tried copy/pasting the .pdf contents and paste it into a .txt. Avatar Ang also stated that he was still creating the .pdf design for it.
