Thread: Whats the best AMP method for you?

Magna imperium - *June 13, 2015, 1:44 am*
I go for NTP,what about you?

?•?•? - *June 13, 2015, 1:48 am*
NTP is good for volume of traffic, while DNS is better for downing protected servers (dns downs blacklotus but not ntp)

Didnt know that about dns,thanks for the info ?

DisruptionSec - *June 13, 2015, 2:24 am*
Definetly DNS, I use DNS for my amplifed attacks but mostly raw UDP with my botnet.

XPRMX - *June 13, 2015, 2:35 am*
I would say DNS for servers and chargen for home connections

J?son - *June 13, 2015, 2:44 am*
NTP and REK are the best amplification methods for me. ?

Magna imperium - *June 13, 2015, 2:51 am*

I got an OVH method if you wanna buy it, pm me.

.

i'll include ReK if you buy lel
