Send you an PM. Check it.

I need the same thing. Password cracker for .rar, or some good crypter(doesnt has to be FUD, but it has to pass trough most of common antiviruses) that works in wine. Or native linux.

Mister ? - July 22, 2009, 11:37 am

Also check your PMs. But only have a ZIP/RAR password cracker for both of you.
For crypters use the forum search.

It is not working, but thanks anyway.

Just run "setup.exe" and after it is installed run the program.
Than enter the registration key, which is in the file "Registration Key.txt".

And make sure that you configure the method you choosed.

I know how to install a program lol! But it is not working under wine on linux. I have no doubt that on windows it would work correctly, but i dot have windows, and not all windows programs run under wine.

Mister ? - July 22, 2009, 12:22 pm

Ah ok ;)
Well I thougt you use Windows.

thanks Mister?

fico23f - July 25, 2009, 6:16 pm

lol why you just dont post the program here?

btw can you pm me whit the zip/rar password cracker?

squab - July 25, 2009, 9:00 pm

Hey plz could someone sent the rar/zip cracker program to me ? or send a link to download the program? send the link or the pro in a pm.

Thanks to your appreciated efforts
