Thread: UPDATED: $5,000 so far this week (will update all week)

Morty - *September 6, 2015, 6:35 pm*

HAHAHA i finally found a way to make autopilot money.

I was flying back from melbourne after smoking up with my buddies all weekend and i had a crazy thought. As soon as i got reception i tested the method and within 30 mins i had $100 profit.

Fell asleep and overnight these are my profits.

the method is still very raw, once i refine it and build on it i might look into selling one copy of it (it will become saturated very quickly) or i might just do this for a few months a buy a car.

its litterally way too easy.

For all those that keep trying and never get anywhere, think outside the box! there is a plethora of ways to monetize the internet, keep at it and keep trying your best! ?

UPDATE: MONDAY so its been like 7 hours since i updated this thread! already made double the original profits.. looks like that 15k limit for the car wont be hard to reach after all!

Update:

made a few more hundred overnight like i stated, here are the proofs

i didnt put any effort in lastnight, but i did start a new account to test out a different aspect of the method. Worked, but not as well.

UPDATE: Tuesday

Today's profits... didnt go aswell as i had hoped but 2k isnt bad :)

Doodlegod - *September 6, 2015, 6:36 pm*

Congratulations my dude! I've been trying for a few years every day or so now but haven't come across anything. Hopefully I think of something soon! Good luck with the method.

Morty - *September 6, 2015, 6:51 pm*

Thanks bud! Once I achieve $15k with this method I will release it limited to a few people because I want others to share in this wealth and I'm not going to be greedy with it. I already work full time and

deal so money isn't an problem it's just going to be super cool to say I bought a car with internet moneys

Morty - *September 6, 2015, 7:33 pm*
yes the method involves ebay thats my payment processor/autopilot'er

Its a big enough name that all i have to do is sit back and watch the money come in - absolutley 0 advertising/effort.

$0 investment

using my own personal accounts to sell and process payments because its whitehat.

%90 profit and its about 1 hour work/week with a steady 10-20 sales a week id imagine

That is part of the method.

There is no need for phyiscal shipment but i am exempt from charge back because there is a clause in my method.

I hate having to ask this but I've lost basically $1000 in a few months trying methods. I was just wondering if I could be a voucher for this method? I am willing to write a beautiful Review for you if you create an eBooks for this method. I know my rep isn't the best but I will put time and effort into making an honest review for you.
Thanks and Hope to here from you soon.

I wonder what you are selling to make such a profit, especially if it is white-hat and approved to sell on Ebay, required $0 investment and makes a 90% profit on a $0 investment, intriguing.

Morty - *September 6, 2015, 9:43 pm*
this method is BOMB AF. Im going to use it for a month and post earnings. Then ill release for everyone :)

thats part of the method too isnt it! this method is the culmination of 12 months of researching into monetizing methods and me being the laziest person on the planet.

Litterally made $2200 today while i worked for $18 an hour.

Zack Fair - *September 6, 2015, 10:06 pm*
If it's virtual goods only things that really come to mind are keys, social networking services, seo, etc. If it's none of those I'm impressed. eBay is so picky with listings they'll take down things easily.

Sounds like BS honestly. Why would you stop at 15k and then suddenly share the method for it to be saturated and ruin it for yourself? You even said you are making more than your jobs pay makes no logical sense you'd want to ruin that on purpose just to sell the method to a few people. Just be honest and say you're promoting something.

calm down dectective. Maybe im just not a greedy fuckwit like alot of people you might find on the interent.

Im already fortunate enough to have a full time job, im already fortunate enough to have 2 cars and a good amount of savings from that job.

AND i also said i have extra monetary involvements with the deep web so i dont need any extra money. IT WOULD BE COOL TO BUY A CAR WITH PAYPAL THO AMIRITE??
