Thread: [Scans] The FREE crypters of HackForums! [Updated Weekly]

Incendiary. - *October 8, 2015, 3:45 am*

The FREE Crypters of Hack Forums!

Hello people of Hack Forums.

One of the most common questions I get asked is 'What is a good free crypter?'. My answer is often 'None. Buy one.' However, after testing one i got pretty decent results with it, more then good enough for beginners that are looking to start for the first time. Below is a list of ALL the free crypters on Hack Forums, with a scan of each one. I will be working on updating the scans every 2-5 days, depending on my scheduled. If you feel i have missed a crypter, or make a mistake please contact me ASAP and i will correct it.

All scans are using a Babylon RAT stub. Startup is enabled. If you would like a scan for a different free RAT let me know.

Unencrypted scan of Babylon (Click to View)

Unicorn Crypter - By ?l??? ??t
[Unicorn Crypter] FREE || FUD || NATIV || FREE SUPPORT || WEB-BASED
Scan - 9/35 (Click to View)
[IMG]http://www.refud.me/results/gisaox49tgptr5apeonxsoe3fsq2zwl2ho1.png[/IMG]
Notes: Pretty big stub size. A 356kb stub was crypted into a 1.4mb one.

Vegita Crypter - By thevegita730
[NEW] [FREE] CRYPTER Vegita Crypter [2nd Version]
Scan - 13/35 (Click to View)
[IMG]http://www.refud.me/results/puu9iqrgjfdb7z1s0ixmaweejvo6pdelpek.png[/IMG]
Notes: I can see people having issues with decrpyting the password if they do not know how to. For that reason here is the pass for the .rar (Click to View)rWjFHa4Cm3n72peAV5cx

www.MSIL.pw Cloud Crypter - By ?lixir
www.MSIL.pw Cloud Crypter {UD, Direct Link, Instant, Web-Based, FREE,UNLIMITED}
Scan - 17/35 (Click to View)
[IMG]http://www.refud.me/results/3f2kinvccual2pudaideq8gwrcckc35obnk.png[/IMG]
Noes: You dont have to download a crypter! It is web based. Adds around 0.2mbs to the stub.

ICryptex Free Edition - By Kayxs
[Free] ICryptex Free Edition [100% FUD] [Latest Update : 26/09/2015]
Scan - 6/35 (Click to View)
[IMG]http://www.refud.me/results/cyihh8lovjndvu0amtg8lenecqvcntuchzr.png[/IMG]
Notes: You skids need to learn how to decrypt passwords. Seriously. (Click to View) http://pastebin.com/zj1TdTxq Pretty big stub size. Also has a icon changer.

SolitudeCrypter - By L_USER
[Free][Beta] SolitudeCrypter
Scan - 13/35 (Click to View)
[IMG]http://www.refud.me/results/biqyj0soyvabgbqzziekdnuwxz7nvfrcfln.png[/IMG]
Notes: Large stub size (1mb+). Simplistic af, literally no options.

FUD! BosonCrypter Free V2 - By Wardow
[SPECIALISTS] BosonCrypter Free V2 - Auto Update - Really FUD
Scan - 0/35 (Click to View)
[IMG]http://www.refud.me/results/cutbrawguws1fk1rykruamspyx0ulw78jei.png[/IMG]
Notes: You have to choose your own .ico. This might be a issue if its not FUD. A free FUD crypter? wtf

x - Crypter will be added as soon as i get given access to it! If i have missed another free crypter please let me know ASAP and i will add it to this list.

How to Decrypt Passwords
Since every skid and his dog do not know how to decrypt the passwords for the .rars. Here is a short guide. I will be using the crypto-combination for Vegita Crypter as the example.
For this example i have crypted a string of text using the pattern below.
Base 64 > Atom 128 > Feron 74 > Zong 22 > Esab 46
This is the end string of text, after going through the above process.
Code
8sGgz0hEv26v7V9S0mZyM4Re30qh9VVo8sNzOzrlzWxz1lVYz4Yb2rMVyWp69V6c8qHnxW6Wtn1oNsdB12MXzz0oyUrU1kdr846KO06o2KMg6zNq7DMf929rwVNX6zNq241Ovz0Vvkxzv06Otm666zNqtj9z7TrtNzxzz2wVvkxeNXRly0r1Or6Yvzxowzrm22V66zNq7s6z7VRiThis means that the text above is from AFTER going through the encryption process (base 64>atom etc etc). To decrypt it we simply have to reverse this.
So, we will start with Esab 46. Go to this website: http://crypo.in.ua/tools/eng_esab46c.php and paste the password into the text box. Once it is in there click 'decrypt'. Copy the new password and scroll down the page. Look for "Zong 22" and click on it. Do the same as before, but this time paste the password AFTER decrypting it with Esab. Continue to do this for Feron 74, Atom 128 and finally, Base 64. After decrypting it with Base 64 you will have the original string of text.
If you couldn't follow those instructions, you should not be using a crypter in the first place. Seriously. You shouldn't even be on a computer.

This is a placeholder spot.
Future updates and expansions will go here.

420 Blaze It - *October 8, 2015, 3:48 am*
Good job, it's a free FUD Crypter on the internet.

supreme00. - *October 8, 2015, 3:51 am*
Why are you posting inaccurate scans? Most of the detections are icon detections

Incendiary. - *October 8, 2015, 3:53 am*
(Oct 8, 2015 03:51 AM)supreme00. Wrote: *[CITE]* Why are you posting inaccurate scans? Most of the detections are icon detections
I used the default settings, without adding icons or anything.
Those are the default icons, most of them are specific to the crypter. Ill work on a scan using a FUD icon.

Alison Wonderland - *October 8, 2015, 4:16 am*
Would be pretty sick to see some runtime scans also
if your bank accounts keen on it ;)

If my bank account was keen, i would be making one of these for all the crypters, paid and free :P
But im a broke ass bitch, so this will do.

Dar?k - *October 8, 2015, 6:03 am*
Bosoncrypter is useless...

ICryptex is the best free one :D

?l??? ??t - *October 8, 2015, 7:37 am*
hey man,
i sended you a pm about the Unicorn Crypter,
its the icon what makes it detected.

just read the pm and you will understand ;)

Redovan - *October 8, 2015, 12:55 pm*
I don't think telling them how to decrypt passwords was a good move.

linkme - *October 8, 2015, 9:55 pm*
That is something heck of a thread you got bro. Helpful for most.

the thing is,
some of these crypter just have genetic detections
and you just need to change the icon of the crypted file and they are fud / ud.

I provided the generic scans, so yeah.
Im really busy today, tomorrow im going to update teh scans with a FUD icon.

You mean to change the icon after crypting? or while crypting?

Incendiary. - *October 8, 2015, 11:32 pm*
(Oct 8, 2015 11:22 PM)linkme Wrote: [CITE] You mean to change the icon after crypting? or while crypting?
Depends if the crypter allows it during crypting.

I will add a tutorial on how to make a FUD icon and how to change the icon.

I would like to know how to make a fud icon. PM me if you can.

Rukki Rito - *October 11, 2015, 6:59 am*

Plz test with NanoCore and IM3 RAT
I want to know these crypters work good for .Net RAT
Thanks bro

xStealth - *October 11, 2015, 7:21 am*

I've tested all the free crypters too.
Unicorn Crypter is the best atm (Longest FUD time, many features)

Keep up the good work! ?

still waiting on a new result.

benchd - *October 11, 2015, 9:38 am*

Great thank you mate :)
Keep up your work!

Tunnelsnake - *October 11, 2015, 2:09 pm*

yerr great work thank you for it

Incendiary. - *October 11, 2015, 8:46 pm*

Busy af atm, ill update them today if i get time. If not it will probably have to wait until the weekend.
lmk if someone wants to assist with this list.

Incendiary. - *October 27, 2015, 3:51 am*

I don't have the time or effort to keep on doing this.
If you are a HQ member and would like to take over this for me, PM me and i will let you. I cbf maintaining this in my current status.

DephtChaos - *October 30, 2015, 3:40 pm*

Can you send me your steam stealer? i cant pm you :P

masterme - *November 3, 2015, 6:49 am*

thx for sharing bro appreciate it

This. If they're too stupid to fucking google the encryptions are do them in the reverse order than they should get the crypter

hackhustle - *November 3, 2015, 12:26 pm*

just pay the dollars for a proper crypt. no time to be cheap.
