Thread: [\[VB.Net\]\[Source\] URL Shrinker \[Release\]](#)

GanjaMan-WS - February 17, 2011, 3:23 pm

First off all English is not my native language so watch for typos and let me know if any errors occur. Also let me hear what you all think of it. Its based on [codebreaker911](#) URL Shrinker but that missed alot of null checks and trycatch statements also I added features as well

Created with Microsoft Visual Basic 2008 based on .net Framework 3.5

ThumpDump - February 17, 2011, 3:40 pm

Loving The password, also the source, Nice share =]

GanjaMan-WS - February 17, 2011, 3:41 pm

First thing that came up also ty for ur reaction. I hope people will learn from this.

RaZa - February 17, 2011, 4:40 pm

Could you possibly send the source code? Thanks.

Cody8295 - February 17, 2011, 4:51 pm

Nice little release, thanks.

PURP - February 17, 2011, 5:07 pm

Nice job you did here man I am sure some people will find it useful.

GanjaMan-WS - February 18, 2011, 12:57 am

(Feb 17, 2011 05:40 PM)Snippz Wrote: [\[CITE\]](#) Could you possibly send the source code? Thanks.No I wont, the pass is only encrypted once and one function and the name is even noted, so start learning how to use the internetz

(Feb 17, 2011 05:51 PM)Cody8295 Wrote: [\[CITE\]](#) Nice little release, thanks.

TO BOTH:

Thanks, let me know if u encountered any errors

Ingenuity - February 18, 2011, 1:51 am

Hey there,

Would it be OK if I used one of those APIs in a webbrowser I'm writing? I'll add you to the credits list.

The webbrowser I'd like to add it to: <https://hackforums.net/showthread.php?tid=1051671>

GanjaMan-WS - February 18, 2011, 2:56 am

U mean the statement for creating and retrieving to shrink url or the username and api keys
If the first then sure but the original idea was from codebreaker i only rewrote the url for the other providers so make ur choice. And for the usernames and api keys please don't do much creations will probably get it blocked.

no1me - February 18, 2011, 3:11 am

someone post example like this anyway tnx

Doctor07 - March 20, 2011, 3:29 pm

Nice little release you have got here dude,
it's something unique and simple, i like it but i just recommend you work on GUI's ?

GanjaMan-WS - March 20, 2011, 3:39 pm

Thanks for the response/feedback.

@ ViolentReality it's something unique and simple

It was not my idea so credit for the actual idea to the other guy

Offtopic: bet you checked my created threads since you have posted on both lolz ty

dedea - June 11, 2011, 12:59 am

hey bro that password is wrong idk why i paste that code and it not works.

emiak - June 11, 2011, 4:12 am

nice idee ! thank for this source

Kousha - June 11, 2011, 5:24 am

Looks pretty cool, downloading now. Thanks alot for the source :)

(Jun 11, 2011 12:59 AM)dedea Wrote: [\[CITE\]](#) hey bro that password is wrong idk why i paste that code and it not works.

Gotta decrypt it first buddy.

iCoder - June 11, 2011, 6:30 am

Well, I completely appreciate the coder for posting the source. Awesome work and thanks for the source mate.

cOld fus1on - June 11, 2011, 6:45 am

Really cool idea you came up with!

Nice job, I'll download it..

INFA?OUS - June 11, 2011, 7:22 am

Great work!

Nice share :)

Thanks.

Coleak - June 11, 2011, 10:59 am

This is kind of cool, although i don't exactly see the point of it. Wouldn't you only need one of the links?
