Thread: Official Group - Looking for Userbar/Ficon + Thread graphics ($75)

Krave - *February 19, 2016, 3:34 pm*

Group name: The Order

I need some graphics done for my upcoming group called The Order.

I am looking for:
Userbar - 136 x 42 pixels(width & height)

Forum Icon - 40 x 40 pixels (width & height)

Thread header/thread separators

These all need to have the same theme. I am leaving the designs completely up to the people who enter. I have no set theme or colours in mind. Be creative.

Winner gets $50 BTC + group entry.
$75 if you do not want to be added to the group.
If I really like another design but you don't quite make it, I may give you a small reward too.

I will choose the winner when I'm happy with the entries. Good luck.

Narrate - *February 19, 2016, 3:35 pm*

I will be helping in the selection process, be sure to make the userbar clean!

Wait is this an official hackforums group?

If it is good luck running the group!

Read about you buying the group in beslim's thread. Good luck with finding a designer :)

Sure, why not. Probs by like $20.

How sure are you of this group actually being bought buy you? Not trying to sound rude or anything, just saying. I've had past encounters where the almost-owners were happy with the designs but never ended up purchasing the group, therefore not purchasing my work.

Here's my entry, and first userbar entry on this forum, I would not normally enter competition style threads but I'm new here and establishing myself in this way would be a great start.
Remember these are just concepts at the current time, after doing some research on "The Order" a Phoenix seemed to represent this the most.

I might be wrong but I swear I have seen that userbar somewhere before.

Either a multi-account or a ripper ; https://i.imgur.com/96H85gv.png
I'll go with multi-account because of the thread design he made, it has "Parathis Network" on one of the thread designs, lol. https://imgur.com/BMbs8mD

Parathis reqested designs from me previously. I have him on Skype actually and he's online once in a while, he asked me to create this user-bar a while ago and never paid me for it, I saw the thread name and it reminded me of the userbar (which has never been used). I also made the Parathis thread for him as I was going to team up with him on his Graphic designs, that's actually how I found this forum, so no I've not ripped anything (I can show the full PSD if needed). I also never gave him permission to re-sell this userbar (or even use it) as he never purchased it.

tl;dl If you would like me to remove my submission that's fine, I just know this design was never used (he never received a PSD) and I didn't think it would be a problem!

100% sure. It's just taking a few more days to get all the funds due to personal limitations. I would pay you anyway even if the group didn't work out.
