Thread: Social Media Panel $20 lifetime

B?o?s?t?o?n - *April 2, 2016, 3:46 pm*

I'm selling access to a YouTube and instagram panel.
Comes with a username and password
•Does Sub4Sub coins
•Instagram Comments
•Real Instagram Likes.
This will be lifetime membership for only $20! Why am I doing this so cheap you ask? I'm trying to buy more scripts so I can update the panel for you guys :) post below If your interested in buying I accept btc and PayPal you will also be able to open your own shop with this ?
•Note• the likes come from real people might take time to show results. TOS you will not be able to sell your login info. I will revoke your membership if I see you selling it. You are aloud to sell the service. No refunds whatsoever. If you chargeback I'll file a scam report

The panel is lovely. Bought the access today. Easy to use and works smooth.
It's exactly what I need for my IG likes.
You post the pictures you want to be boosted and it gets the job done.
Real people liking your posts.

Finding new people, asking for their services, going through the steps to pay him, waiting for the replies (different time zones) wasn't cut for me.
Here you pay $20 and you're done with the hustle. Thanks for the service.

Vouch for this panel, the panel is elegant, awesome and easy to use. The likes are from real people and likes are mostly instant (takes time tho as its from real people). Sub4Sub works pretty got just got 140k coins and getting subs already.
I would highly recommend everyone to buy this before the prices go higher. OP knows what he is doing just cant wait for the future updates hopefully more Youtube services.

Thanks!

OP is an nice guy (sad, that he IP bans and put me on his Ignore list when I am trying to tell him about the security problems). But this panel is an old source from an coder I know.
The panel is accessible without having an account and it's basically just an uploaded version of his project.

I think OP should take a look at this, because when this link leaks out the lifetime members paid 20 for nothing.

This user found out the security problem and refuses to tell me anything about it that's why I've got his ip ban also if anyone takes part on this bypass you'll be ip banned and I'll open a community alert in no way are you allowed to do this.

Also this should be patched by tonight so don't even bother

Mate.. This panel is an copy of someone else's work he told me this security problem. You should be thankfull and not get so angry. If you were cool down and relax, we could talk and solve it together. But threating me for the 3th time is not gonna help it..
