Are you sure you dealt with me? I see you the first time.
And before everything, I am not buying AGC those days. So you came right in the best moment with all your bullshit lol
Post some screenshots then, don't trash talk but post some evidence.

Was wondering if you'd accept https://www.paypal-cash.com/
(I don't have a paypal account because I'm only 17)
Its basically a prepaid card I load funds into from a gas station and then you or a middleman enter the code to redeem the funds into your paypal without fees.

I need around $400 USD, we can do a smaller amount first for you to try this out.
Looking to pay up to 5% for exchange fee because there's no way I can get my funds back after

you redeem it from the card.

Anyone who's waiting, keep doing what you're doing. Wait. Danny randomly decides to be a MM. It's a bitch, but it is what it is. I've dealt with him multiple times and had an unexpected wait due to the fact that he didn't tell me he was being a MM for someone and had to wait himself while he was communicating with both parties.

Wait out the 24h and then if it seems like you've legitimately been scammed open your DD.
