Stolen... - *May 26, 2016, 9:42 am*
My friend has been working at a certain company for about a month now. Using our method, I've made $330 off the company, doing nothing for them. I will share details of the method and go first to trusted members.

Price is $50/month. You get paid every Friday.

Nobody's gonna buy anything from you without at least a vouch copy given and proof of earnings. Good luck though.

I can take information of this method and if we I make money like you said, i will pay you that 50$ but do they pay in paypal or where?

FreeAnneFrank - *May 26, 2016, 9:50 am*
Do you think I am trusted enough?

webdev77 - *May 26, 2016, 9:50 am*
Is there a reason you have the price listed at $50 per month? I'm kind of interested but skeptical.

Edit: I mean instead of a one time payment?

mcphern - *May 26, 2016, 9:52 am*

How long has this method been working and will it keep working? I don't understand how they pay you every Friday to do nothing for them. Thanks in advance.

Jagermeister - *May 26, 2016, 9:59 am*
Exactly how much work per day? I work full time so I usually only have around 3 spare hours a day. and 50$ a month, for how many months are we going to have to pay that?

You don't need any spare time. For every month you're paid, you'd pay it.

Edit: Going to work guys, leave messages in inbox

It involves daily work on our end. Very, very easy daily work, but still. $50 and we have to do it every day, if we get a lot of people, it'll be a bit harder.

Btw everyone, PM me. I will go first to trusted people, no problem. I will also PM details before you buy. I'm getting ready to go to work atm, leave me messages.

3 people are having the process start on my end today.

It's not a Ponzi. I actually got people messaging me this, not sure why I gave off that vibe. I must have described it poorly. But if anyone wants to PM me, I'll gladly give details.

I paid for this. Stolen... has been very quick to respond to my messages. I won't see any money for a week, so I can only vouch for the communication, and the prospect of the method, both seem excellent. I figured for the low asking price it's worth the risk.

I mean look at this conversation and tell me, WHY would someone who can get 200$ to 400$ give away money and only receive 50$ a month for it????

You must be blind to fall for this especially considering his rep and that he scammed for just 15$ before

Stolen... Wrote:.lll Wrote:Stolen... Wrote:.lll Wrote:Stolen... Wrote:They pay to a prepaid visa. You can withdraw cash at an ATM. I believe the ATM fee is $4.95. My friend works at a certain company in the area. It has over 1200 daily employees, so it's easy to get away with. He makes a fake ID badge, with a fake name and picture and scans you in for the day. There's no labor tracking, so there's no way to see which employees are working and which aren't. So you get paid every Friday.

No work on your end. We'll scan you in daily.
Sounds good and risky. So what do i need to do to get in and how will i be paid?
Not risky on your end. We don't use real details for you. It's $50 per slot. You get paid to a Reloadable Visa. You can pick one up, or I ship them out to customers with more than 1 slot for free.
ok great, well i am in then for 2 slots. How much estimate will that give me each friday?
And how do i need to pay you, btc/pp/skrill or?
I assume this can be done when we can withdraw from atm or does it needs to be upfront?

?
Is the payment to me upfront? Yes. It's BTC. 2 slots would be $260-600/week. $400 average.

I knew this was a scam when he told me the "company" pays out on Fridays at 5PM EST. Anyone who works (not on a computer) would know that timing is extremely fishy. What company would pay their employees at 5PM on a payday? Makes absolutely no sense.

You all should've known better; especially the Americans who purchased this.
