Thread: [Keylogger Needs Tested](#)

HaterAid1988 - February 20, 2011, 2:50 pm

I just got my keylogger set up and its ready to go but i need to make shore it works. So if someone with a sandbox could test it for me that would be supper sweet. Just pm me for link to my keylogger ?[/size]

Kom - February 20, 2011, 4:11 pm

Failed BBcode

What logger are you using? Why not just test it on your self?

HaterAid1988 - February 20, 2011, 4:51 pm

I would not know how to remove it i used decay keylogger can you help?

Wolves - February 20, 2011, 4:54 pm

If you don't know how to remove your logger, you probably shouldn't be spreading it. The possibility of self infection on a new user of a keylogger is probably fairly high.

Congrats on Ub3r, Kom.

Very deserving if I may say so myself.

HaterAid1988 - February 20, 2011, 4:56 pm

Ya i never think ahead but if no one wants to test it where do i get a sandbox at?

Thanks alot =)

Also there is a Cure - Pm my self or Imp for it.
