Thread: Requesting a forum userbar

??ZèÞ* - *June 18, 2016, 3:01 pm*

I'm requesting a forum userbar saying "Kings" in red and black with a crown for my forum. This is a user group and not an official group so it does not have to match anything just be nice looking. Thank you in advanced!

Anybody able to do this for me?

I'll be able to do this for you in a few hours if you're okay with waiting. Currently on my way to a lake house.
