Yes it's worth play and putting money into skins imo

And the community isn't toxic it's y'all just some bitches but other than that it's great community . :)

Agreed, don't do it man. It's not worth it you'll just be wasting both your time and money. When you start out it'll be fun but it gets old fast. Especially if you're planning on playing ranked.

eco999_temp - *July 5, 2016, 1:36 am*
You can get toxic players but you will learn how to deal with them. You can't trade skins etc. like you can in CS:GO. There are still 'hackers' in LoL but they are super uncommon.

reficuL - *July 5, 2016, 1:37 am*
It really depends on what you mean with worth it. You'll like it at the start and then after a while it'll slowly get boring just like every other game.

Pew ? - *July 5, 2016, 1:38 am*
No it's fucking cancerous invest your money in something else.

You think in league there's no cheaters/scripters ? also it's not worth if you're casual player i mean not playing competitive that much :) . I Wouldn't recommend you to start because like every single moba game there's toxic people.

INVULBOX - *July 5, 2016, 1:52 am*
I'll say if you don't have more than 4+ hours free to yourself then I wouldn't recommend this game, it'll seriously destroy your life/lifestyle. Games require 30 minutes to an hour of nonstop gaming, sucking you in to play game after game to have that "feeling" of out playing your opponent.

It's a 50% chance that you'll be "addicted",or you might be the other 50% that got outplayed and rage quit the game.

nah League is a dying game. Go to Overwatch or HOTS

thanks guys, for the feedback

Heroes of the storm worth?

phishermandan - *July 5, 2016, 6:19 am*
Its worth it, but one thing you have to get used to is the community. People are mean in the league community XD, but its easy to ignore them, and please dont get triggered by them. Have fun

Acorns - *July 5, 2016, 6:32 am*
Heroes of the storm isn't worth it in my opinion the game was pretty dead last time i palyed which was around two months ago - may have changed now?
is a fun game dont get me wrong just better with friends and que times are quite long from what i remember.

Ahri????? - *July 5, 2016, 6:33 am*

You're talking like you meet a cheater in every third game just like in CS:GO

I have met 1 scripter in total and I'm playing since Season 3

xShadowAlk - *July 5, 2016, 11:36 am*
Its toxic. You don't have to spend money though because league is free. Also league requires more than just being able to have super fast reactions in sniping people. (Basically you can win just on game knowledge rather than super fast reactions).

Dessie - *July 5, 2016, 3:21 pm*
League will never die, so you are safe in that aspect. Though it comes more to the players preference, I've played 5 years (since season 1) and I think I've already achieved the fun of the

game and it will never become as fun as it was. I do still play the game but I don't put a single penny on it. When it was the most fun I put in several hundredths of dollars and I don't regret it.

Stop saying it's a fkn waste to put money into a game you like lol, if you enjoy it do it. That's my tips for you, if you like the game really much and feel like you will enjoy it even more by buying skins etc, do it.

Delta - *July 5, 2016, 6:06 pm*
League is fun in my eyes. I enjoy it however it has lot's of bad aspects one being the community. It's extremely toxic. It's also very time consuming. Best thing to do is download it try a few games and see what you think.

Yes it is quite a fun game.
I would only really put money into it, if you plan on reaching gold or higher. If you plan on just chilling and not playing to get better, then just chill and main 1 champ.

cranberryjuice - *July 6, 2016, 12:45 am*
It's a sick game, but it'll get boring fast so I would invest too much into it dude.

Desolate Night - *July 6, 2016, 1:12 am*
It is worth playing and it is worth putting money.

I like Riot for being a no-bullshit company. League is a decent game and money can't really buy you a victory, unlike some other games that I've played.
It is not a P2W and if you want to have fun, I'd say League is for you.

Depending on your playstyle, you have many many different champions to choose. It's perfect.

Ezki - *July 6, 2016, 2:24 am*
i tried it and bought gnar and a skin for him i am maining him mostly and learning how to play him, any tips?? thanks for the feedback

Goat - *July 6, 2016, 3:29 am*
I play League really often and I don't spend money on it.

I used to spend but not a lot, you gotta spend money smartly. (buy skins on sale, don't buy champions with rp)

Kayoz - *July 6, 2016, 9:44 am*
It's a pretty good game, and putting money into it is optional and not necessary at all (but you're gonna do it anyways).

The only bad think I guess is that there are a lot of toxic players. Just laugh at them or mock them.

Don't let them project their self-hatred onto you.

?lex - *July 7, 2016, 3:31 pm*
Of course it is. If you wanna lose several years of your life under stress.

sharpmsgr - *July 8, 2016, 9:26 am*
If you play adc. Dont invest money. There are a lot of ttoxic players. Mute all and play.
