You waited maybe an hour max while i was asleep and you charged back on a measly $3 product.
Rocketr sends you the product right away so
1.) Either your payment was under review for 24 hrs by paypal
or
2.) You paid via an e-check which hadn't cleared

All you had to was contact me through either p.m or email and i would've sent you the product but instead you charge back.

I contacted you on the dispute center. I was going to send to you when i woke up, no idea why you made such a big deal for a measly $3 product when i was going to send it to you when i woke up.
