Thread: Pokemon rarity chart

Moxxi - *July 17, 2016, 2:45 pm*
Taken from the Reddit, so credit goes to the guy who made it.

I've caught 600-800 pokemon in total since ive played and it Seems pretty accurate so far.

Nice chart of all the pokemon in categories. Seeing the region exclusives make me sad and makes me want to move to Australia. I live in the EU and we get...

Thanks for this, pretty informative. How have you caught so many? Legit? Because I guess you must walk a lot then

SIM-403479 - *July 17, 2016, 3:02 pm*
I found about 4 Mr Mimes earlier they were everywhere. I still think the other continents can get eachothers pokemon. They just have to hatch them instead of catch them, am i right?

It is missing quite a few pokemon on the chart though.

Mr. Mime is a god damn beast. Nigga slays pussy on the daily.
Just be lucky you're not Japan.

Awesome find. Thank you very much :)

Walt Disney™ - *July 17, 2016, 3:06 pm*
I don't understand how Pikachu and Squirtle are special. I see at least one a day on my nearby pokemon.

This has been on here a few times but whatever.
It's nice to know I have 5/7 of the special. The NA region pokemon as well and Snorlax.

Krule - *July 17, 2016, 7:37 pm*
not a very bad find at all, this will most likely help out users that are seeing very rare pokemon..

frowneyface - *July 17, 2016, 7:40 pm*
Can't wait for trading to be available on the app. Especially if some are region only!

An?iety - *July 17, 2016, 7:42 pm*
There are ponytas and vulpix everywhere around here

Houtarou - *July 17, 2016, 7:42 pm*
For me, the starters along with kabuto would be more around the very rare level because I encounter them a lot more than dratini, magnemite, hitmonlee, etc. This may just be for my area though.

?XiS - *July 17, 2016, 7:42 pm*
Hmm, this is pretty interesting, thanks for this. I really want to capture all of them just to annoy all my friends.

findingnature - *July 17, 2016, 7:42 pm*
I want the Snorlax so bad, I guess I'll keep searching. It is literally dominating gyms over here by where I live. My highest CP is only 1300, and the Snorlax is like 2500.

My highest cp is with a charmander, it has 400CP and its pretty nice, i guess. until i get fucked out of my life.

#Skyline - *July 17, 2016, 8:55 pm*
Thanks for the share OP, this will help me determine the value of each Pokemon I get.
Hopefully will get some rare one's, who knows.

Xerotic - *July 17, 2016, 8:57 pm*
I didn't know there were some region exclusive Pokemon separated by continents. That Is honestly awesome. Hint: Be In a larger group of Pokemon to see better Pokemon more often.

Ninetales. - *July 17, 2016, 9:00 pm*
Pokemon are region based, so this is really only accurate for where this guy lives.

In Arizona this isn't accurate at all.

Not to mention this list doesn't even have Kabutops.

Omoi - *July 17, 2016, 9:04 pm*
Meh all mine are common got 1 uncommon, my friend has a few rares.

Krule - *July 17, 2016, 9:18 pm*
My friend has a few rares as well, and he wont tell me where he found them which left me all types of sad and shit.

Blazingrays - *July 17, 2016, 9:41 pm*
Thank's for this OP it's very informative

Soulmate~?? - *July 17, 2016, 9:45 pm*
I think this is only accurate for certain areas. For example, here I've never seen an

Oddish or Magikarp
I've never seen a Kingler but some people here have them
Abras, Rhydons/Rhyhorns, and Machops are pretty popular
And Ponyatas are fucking everywhere

630 - *July 18, 2016, 1:32 am*
Thanks for the share never saw this chart. Pretty bummed out that Tauros is what I get in the US. Would love to find me a Khangiskhan (I butchered that). Seen quite a few of them. Pumped that I got Dratini, Hitmonchan, and Electabuzz tonight.

Mi2414 - *July 18, 2016, 2:16 am*
Good to know I got a few Specials easily, maybe I could pickup a Snorlax if I keep it up haha

Vassilios - *July 18, 2016, 2:17 am*
Where is Gyarados though? I evolved one but I am not sure if it was worth it.

Magikarp, doesnt have any evolves on it

Dastoks - *July 18, 2016, 2:40 am*
Ita a nice chart but ice seen few variations of it already and this one dosent have some pokemons. Ive seen more detailed charts.

Anyway thanks for the info! Bummed i cant get regional pokes

grady - *July 18, 2016, 2:42 am*
I want a fucking Rhyhorn so badly, that motherfucker is so cool.
Aggron is legit my favorite pokemon, along with Tyranitar.

Raz Riverblade - *July 18, 2016, 3:04 am*
I am so dissapointed by or region specific pokémon

Mr. MIME really? god damnit

i'd rather have Tauros
This also means that i'm gonna have a bad time completing this day if trading has to happen face to face

Please let me know the location! I need a pikachu!
I haven't found one. Been walking around my whole town plus other towns here in Ny.

DamienVC - *July 18, 2016, 3:10 am*
Meh I regret not going after that snorlax lmao. I have at least one from each chart till the Mythical one. xD

Gonna evolve my Growliths soon into an Arcanine

Vitani's Mate - *July 18, 2016, 3:13 am*
Well according to the chart.
Dratini is the most rare Pokemon I have caught so far.

I am planing to get more and more though.
I might go back to the foreshore and get more.

Minato Namikaze - *July 18, 2016, 3:14 am*
I live in the good ol' us of a. And I have seen a Kangaskhan before.

CHAOs - *July 18, 2016, 3:16 am*
I want that fucking Lapras so badly i don't even care of the rest lol

Katarina Du Couteau - *July 18, 2016, 3:19 am*
I do not really think this is accurate, since I have more of the "rare" ones then the "common" ones, even though I catch every Pokemon I see. Am i just very lucky or is it regional?
Thanks anyways though :)

Windows - *July 18, 2016, 3:44 am*
Great chart, should help me with finding uncommon or rare pokemon.

Thanks a lot OP, I have 2 Jigglypuffs and a Voltorb nice to know I have some good ones.

Same, I only have found one Lapras and it was 40CP, no way I am spending dust on this.
