Thread: Finally found a way on Youtube to make a monthly salary.

Reporter - *September 6, 2016, 12:59 pm*
Note in top: Not sure how the payout will be, been doing this for a week now and made some money. I will update this post in a month when I get first payment.

Currently I have gotten $0 in my PayPal, but my method should work just fine

Here is what Youtube says
Total / Ad revenue / Youtube red

Here is what my network says

Do not ask how I am doing this as I will not say it.

Nice earning. You can even sell eBooks about your method if you want too.

Lol no.

Why would I even try to get my method saturated? I see no reason to sell the way I do this.

Hey, don't expect me to make $50000 a day as some ebooks on HF says, I made more money than I had before and I am pretty happy with that. I still have 3 more weeks in this month.
