Thread: [Shopify] Store is picking up! $315 today! Opened another store, $100 first day!

Silent Militant - *September 16, 2016, 7:07 pm*
After a rough month starting my store, this month has been great! Ads are defiantly worth the price to do! Spent only 15$ on a ad for 30 days on a site and been seeing sales are increasing! 80% is pure profit:)

Should I make a Ebook about this? Pure Profit Right here.:)

EDIT
Just opened a site today and made already $100, 90% of sales are profit.
