Thread: HOW TO MAKE MONEY -> FIRST AND MOST IMPORTANT REQUIREMENT

Freakiii - *December 23, 2016, 2:33 pm*

Hello guys,

This is a simple Fact that is so important that its true priority is often lower than other things.. This is something for alot of people who are trying to make money but fail because they mindset is being overrun by other unimportant priorities that they forget the real significance.

Its Traffic.

Every money making Method is built around Traffic. Without traffic you cant make money out of Affiliates, Websites, E-Whore, CPA, Fiverr, Network Marketing, CPD, Ads... literally everything where you can make good money needs the most important Traffic.

This is a reminder for everyone who is struggling to make money. Build your Ideas around on how to get good amount of Traffic/ potential Customers for that Idea and the Money will automatically flow in.

This should be Motivation for people who are trying to make Money and I can only recommend you finding a good way to make money but before you convert that Idea think how you can get good Traffic with an unique Method and you'll see good amounts of money

Thank you and Good Luck! ?
