Thread: Lines and shapes following cursor?

Dopeish - *April 24, 2017, 7:30 am*
Looking to add something similar to my website. Many sites used to have this. Pretty sleek.

Charger - *April 24, 2017, 7:30 am*
JavaScript, not PHP.

Google it and you'll find it in the top 3 results.

"javascript mouse trail effects"
https://codepen.io/falldowngoboone/pen/PwzPYv
http://www.javascriptkit.com/script/cutindex18.shtml
http://www.javascript-fx.com/mouse_trail/index.html

First three results.

You aren't going to find exactly what you need. You need to look at how it's done and combine different snippets and ideas.

Vespei - *April 24, 2017, 9:29 am*
PHP Can't do this buddy. :)

Explain in detail what you need. JS will be best.
