Original thread that I contacted him for:

<https://hackforums.net/showthread.php?tid=1087037>

Summary: I was looking for four steam accounts with MW2 on them, and this guy claimed that he had it. I ended up sending a total of \$18 via Paypal as a gift for them. Then once it was sent, he gave me the login info for the accounts, and appeared offline. Turns out he blocked me, as he is still online here on HF while I am writing this. All four accounts were disabled upon login.

This guy has two other scam reports, and there's probably been other unreported incidents. STAY away from this guy, and he deserves to be banned. Simple as that.

UPDATE: He just changed his username to Coolioster, SmileforSmiley, how typical.

And I know that the accounts are listed in the chat log, I don't give a shit though, they're useless

unless you can convince Steam to re-enable them.

This kid seems pretty shady, changing his name all the time. lolziskid, to Coolioster, now to SmileforSmiley, and whatever else was before Lolziskid. I wouldn't recommend dealing with this guy. Legolas is a good friend of mine and I vouch for him by being scammed by this shady dude.
