Thread: [\[REMINDER\] International HF Day](#)

Windows 7 - February 27, 2011, 6:02 pm

As some may know international HF day is tomorrow.

My friend made a thread with this but it was about a month ago so I thought I would make a reminder.

Every user needs to go on tomorrow so we can break the record for most online users.

Why tomorrow?

Tomorrow is the 28th which is the same day as last year when the record was set.

Get ready to get the max_user_connection error though!

This should be in the lounge IMO, but anyhow happy anniversary HF!

Perfect. I get unlimited tomorrow. Hella pumped.

Rrrrrrocket boi - February 27, 2011, 6:11 pm

Well I mean I'm on basically everyday so yeah I'll be there.

I doubt we'll break the record though...

Hydra - February 27, 2011, 6:12 pm

Whats the record? Anyone know?

Rrrrrrocket boi - February 27, 2011, 6:13 pm

The most users online at one time was 8,700 on 02-28-2010 at 08:03 AM

The reason I doubt it is because not everyone will be on at the same time... not everyone is in the same time zones and people have things to do.

lol I get that error pretty much every day, international HF day or not :P

H?????a X™ - February 27, 2011, 6:14 pm

I'm always on, so doesn't really matter. I'll be there. ;) Haha

ROCKST?R - February 27, 2011, 6:35 pm

Im on every day, every hour, every minute. I WILL BE HERE. ?

Praefectus - February 27, 2011, 6:37 pm

The reason it got to 8,700 was because if you logged off, you appeared on line for 30 minutes.

Ramsay448 - February 27, 2011, 6:45 pm

I'm down for this. My Contest is running tomorrow, so i'll be sweet.

Nice.

And i'll be their.

Dominance - February 27, 2011, 6:52 pm

Sweet. I'll definitely be on.

iMario - February 27, 2011, 6:52 pm

Fuck NO. I could not access HF like this... But I will probably be online so...

Reported - February 27, 2011, 7:07 pm

I'm most definitely going to be on. I hope we pass 8,700 members/guest online.

LancerImpact - February 27, 2011, 7:14 pm

Is it even possible to pass the record?

Won't we just get the Max_user_connections error when we hit 8700?

And you say your friend made a thread like this a month ago? Obvious ban evasion is obvious.

Windows 7 - February 27, 2011, 7:37 pm

He to.d me. He was the one that showed me hackforums.

Gooples - February 27, 2011, 7:55 pm

Can a staff member do a ip check up on this user please?.

SkullTraill - *February 27, 2011, 7:57 pm*

Give us a time. That would make exploding HF easier.

Either way, Omni's not going to have a happy day tomorrow.

Thanks Buzz for reporting user.
