Thread: Tom Cruise (3372466) Luring customers with unrelated scan

M?xim - *May 22, 2017, 10:09 am*

HE REPLIED! With a crappy ass explanation....

Spoiler (Click to View)

User in question: Tom Cruise: https://hackforums.net/member.php?action=profile&uid=3372466

Here is the sales thread with the scan: https://hackforums.net/showthread.php?tid=5541756

Just want to give the community a headsup before purchasing any of his softwares. What he has done is to scan the builder
of his keylogger and surely other products as well. Obviously the builder is pointless to scan, it is the stub which counts. And
a stub is not 922 KB but more in the range of 20-150 KB.

This is the scan that he has on his thread:
Spoiler (Click to View)

This is the properties of his Keylogger's builder:
Spoiler (Click to View)

As you can see, the builder has the same size as the scan, which means that he has scanned the builder and not the stub which
he should be scanning. Faking FUD scans is not appreciated.

@Tom Cruise, provide a real scan off the STUB and not the BUILDER.

THC - *May 22, 2017, 10:10 am*
Check the md5 hashes and see if they match would ya? Tankz.

?ictor? - *May 22, 2017, 10:14 am*
He has been quite a sketchy user to be honest. Maybe he forgot to scan the stub and accidentally scanned the builder?

M?xim - *May 22, 2017, 10:17 am*
(May 22, 2017 10:14 AM)?ictorY Wrote: [CITE] He has been quite a sketchy user to be honest. Maybe he forgot to scan the stub and accidentally scanned the builder?
As a keylogger seller myself, I know that you do not do that mistake unless you have a reason to do so lol. The builder is the application where you make the stub, you do not accidently scan the builder instead of the stub.

Marwix - *May 22, 2017, 10:32 am*

Did a little test and it seems like the MD5 matches the one he used to scan his builder with.

CanadianBacon - *May 22, 2017, 10:34 am*
(May 22, 2017 10:32 AM)Marwix Wrote: [CITE]

Did a little test and it seems like the MD5 matches the one he used to scan his builder with.
so does that mean its a legit scan? or is he scanning his builder

Corrupt3d - *May 22, 2017, 10:34 am*
posting to see if WW3 is going to happen or not

M?xim - *May 22, 2017, 10:35 am*
(May 22, 2017 10:34 AM)CanadianBacon Wrote: [CITE] so does that mean its a legit scan? or is he scanning his builder
It's not a legit scan, he is scanning the builer, not the stub.

THC - *May 22, 2017, 10:37 am*
Just curious, is the keylogger builder when downloaded called VenomLogger.exe?

Cammy - *May 22, 2017, 10:42 am*

Enough for me to not buy it already
Admitted to attempting to reband a product he already sold before, pretty untrustworthy if you ask me

https://hackforums.net/showthread.php?tid=5626269&pid=54885861#pid54885861

Brill - *May 22, 2017, 10:44 am*
Interesting. Thanks for the heads up.

Vitani - *May 22, 2017, 10:45 am*
(May 22, 2017 10:32 AM)Marwix Wrote: [CITE] Did a little test and it seems like the MD5 matches the one he used to scan his builder with.
Well damn, that is actually a dick move from Tom Cruise.
I hope for his sake that he will clear this up somehow, as it doesn't look good for him right now.

?ictor? - *May 22, 2017, 10:48 am*
Yeah, I see, well hope this gets resolved, I don't think it's a mistake either, but for all we know, he could've be high or something xd

Seriously though, yeah, that's an ass move, scammy.

M?xim - *May 22, 2017, 10:49 am*

(May 22, 2017 10:45 AM)Vitani Wrote: [CITE] Well damn, that is actually a dick move from Tom Cruise.

Yep. Welp, I am calling it, this is going to be his reply:
"I missclicked, thanks for giving me a headsup."
Quote me on this later.

memehack - *May 22, 2017, 10:52 am*

tbh he have always been weird

M?xim - *May 22, 2017, 11:11 am*

Looking at his other products, the scans there could very well be faked as well. Sucks. New users are purchasing
his softwares and not expecting to be needing a crypter only to find out that it is nowhere near undetected.

Mr. Reviewer - *May 22, 2017, 11:15 am*

I was thinking to open something similar for another user, does any of you know if https://virustotal.com/en/file/9d3d79ef2acd36ceb20490d20e996fd052d9bee1a6fe63c6e3bc741eacda9f3d/analysis/1494964532/
contains anything bad? I know the malware is from compiler but the Trojandropper?

TOM - *May 22, 2017, 11:22 am*

In the sales thread features, i never mentioned that the Build is fud like in your Jlog even though its not fud , This is the builder scan of venomlogger , If i want to add scan of build i would mention it as venomlogger stub scan

Quote:Enough for me to not buy it already
Admitted to attempting to reband a product he already sold before, pretty untrustworthy if you ask me

https://hackforums.net/showthread.php?ti...id54885861

I bought the ownership for the Project thats as a post before they sold me the rights for this Project if you need proof feel free to contact me or buildoman

M?xim - *May 22, 2017, 11:24 am*

(May 22, 2017 11:22 AM)Tom Cruise Wrote: [CITE] In the sales thread features, i never mentioned that the Build is fud like in your Jlog even though its not fud , This is the builder scan of venomlogger , If i want to add scan of build i would mention it as venomlogger stub scan
Retarded explanation. Why the f-would someone provide a scan on the builder?

Null - *May 22, 2017, 11:24 am*

(May 22, 2017 10:34 AM)CanadianBacon Wrote: [CITE] so does that mean its a legit scan? or is he scanning his builder
It means he's scanning the builder not the stub if both MD5's match.

M?xim - *May 22, 2017, 11:25 am*

Tom Cruise you are one shady ass seller. Essentially tricking your customers that the keylogger is FUD by playing with words. Cancerous seller.

Corrupt3d - *May 22, 2017, 11:27 am*

@tom
I have heard a lot of people who worked for you you dont actually know how to code mostly just copy paste and change it a bit... explains why your products are that cheap

KFC Watermelon - *May 22, 2017, 11:28 am*
(May 22, 2017 11:24 AM)M?xim Wrote: [CITE] Why the f-would someone provide a scan on the builder?
So potential buyers will believe the product to be undetected. When questioned, the seller can simply say "This is the builder scan of venomlogger , If i want to add scan of build i would mention it as venomlogger stub scan".

M?xim - *May 22, 2017, 11:29 am*
(May 22, 2017 11:28 AM)KFC Watermelon Wrote: [CITE] So potential buyers will believe the product to be undetected. When questioned, the seller can simply say "This is the builder scan of venomlogger , If i want to add scan of build i would mention it as venomlogger stub scan".
Exactly. Shitty ass seller. Pisses me off.

TOM - *May 22, 2017, 11:32 am*

Trying to boost jlog sales nice move mr. competitor ?

see the difference you advertise you product as fud , however go ask your customers they come and ask me to buy jcrypter because the shit is not fud

I haven't advertise my product Build is fud in the sales thread desgin . and thats the builder scan ?

why did i add it because? some customers want to use a non detected builder so they dont have to disable their antivirus. firewall before opening the builder

and you can compare the md5 with the builder and the scan want me to send you the venomlogger.exe?

M?xim - *May 22, 2017, 11:34 am*
Tom Cruise, I saw your message, and did you even read the "FUD" part on the thread design? Retard. It says that If there's no scan (WHICH THERE AREN'T), that means that we are currently working on reFudding it. Jesus christ you are pissing me off. Bringing up unrelated things.

(May 22, 2017 11:32 AM)Tom Cruise Wrote: [CITE] Trying to boost jlog sales nice move mr. competitor ?
How can a community alert boost my sales?

You wont be refuding it you're sales thread design clearly mention as its fud if not will refud it but why your developer Marwix is looking for java crypters and in venomlogger nowhere i mentioned the product is fud nor it was made to be fud

refer https://hackforums.net/showthread.php?tid=5609769&pid=54859267#pid54859267

Quote:that means that we are currently working on reFudding it

For how many weeks you were been working on the refud ? ?

M?xim - *May 22, 2017, 11:40 am*

Cancerous seller.

i have clearly mentioned it as venomlogger.exe not the stub scan . stub is not that size if i want to advertise it as fud i would have done it on the sales Title and in the thread desgin like yours

M?xim - *May 22, 2017, 11:50 am*
(May 22, 2017 11:48 AM)Tom Cruise Wrote: [CITE] i have clearly mentioned it as venomlogger.exe not the stub scan . stub is not that size if i want to advertise it as fud i would have done it on the sales Title and in the thread desgin like yours
You are only doing it to lure your customers, KFC gave a good explanation:

(May 22, 2017 11:28 AM)KFC Watermelon Wrote: [CITE] So potential buyers will believe the product to be undetected. When questioned, the seller can simply say "This is the builder scan of venomlogger , If i want to add scan of build i would mention it as venomlogger stub scan".

Donald Trump Jr. - *May 22, 2017, 11:51 am*
Tom Cruise is a sketchy fuck who sold me a non working SMS bomber. And wouldn't refund me when I pmed him. Not surprised about this.

?ictor? - *May 22, 2017, 11:53 am*
(May 22, 2017 11:48 AM)Tom Cruise Wrote: [CITE] i have clearly mentioned it as venomlogger.exe not the stub scan . stub is not that size if i want to advertise it as fud i would have done it on the sales Title and in the thread desgin like yours
Buddy, you should know that when you scan something while selling that sorta stuff is implying that it's the stub you're scanning.. Like, you are saying it's not a stub scan, obviously not, but customers may get confused and think it's FUD

TOM - *May 22, 2017, 11:53 am*

I got nothing to hide.

You clearly are tricking your customers into believeing that your keylogger is FUD. Your scan is as related as me scanning a calculator I made in C#. It will be undetected just like your builder.

TOM - *May 22, 2017, 11:57 am*

(May 22, 2017 11:53 AM)?ictorY Wrote: [CITE] Buddy, you should know that when you scan something while selling that sorta stuff is implying that it's the stub you're scanning.. Like, you are saying it's not a stub scan, obviously not, but customers may get confused and think it's FUD

I understand that i would gladly answer that if someone contact me on skype or private message if they are confused ? asking if its Fud or will you make it fud
message from last month i got more like this i always say that to them use a crypter with it

however i will edit it to venomlogger builder scan so customers will identify it easily

(May 22, 2017 11:55 AM)M?xim Wrote: [CITE] I got nothing to hide.

Quote:that means that we are currently working on reFudding it.

Quote:I haven't advertise my product Build is fud in the sales thread desgin . and thats the builder scan ?

and Honestly if you advertise as you will work on refud when needed why would the devloper look for other java crypters so that he can recommend your customers ,, Like KFC said i think that quote suites to you very well

If so why would you even mention that you will refud if its get detected and giving hopes to customers?

and in your auction thread you say you wont be refuding it untill you find a buyer

You tricking your customers by giving them hope before Purchase thats why i was wondering why customers of you asking me weather my Jcrypter is compatible with Jlog

M?xim - *May 22, 2017, 12:12 pm*

(May 22, 2017 12:11 PM)Tom Cruise Wrote: [CITE] -

We're doing nothing wrong with saying that "We won't reFUD it till we find a buyer", because the auction will be ending soon. We're getting high bids already and people are showing interest in it, which means that my partner will reFUD this soon.

You on the other hand are luring your customers into thinking that your keylogger is FUD while you are providing an unrelated scan.

TOM - *May 22, 2017, 12:16 pm*

(May 22, 2017 12:12 PM)M?xim Wrote: [CITE] We're doing nothing wrong with saying that "We won't reFUD it till we find a buyer", because the auction will be ending soon. We're getting high bids already and people are showing interest in it, which means that my partner will reFUD this soon.

unrelated scan wait ?

its not unrelated scan thats my builder scan not the binary or stub scan

and you already have mentioned that you are not in a hurry selling the Project to someone else you mention that you have sticky until next month and will wait for month to get it fud . or untill its sold for instant Bin price ?

So that means you customers have to wait for the new buyer to purchase it ? to get their stub refud or look for another java crypter and purchase it ?
or they gotta to count on your auction buyer

Threshold - *May 22, 2017, 12:19 pm*
Beware when buying this guy's products, a while ago I purchased some java crypter he was selling. The product was complete trash and when I contacted him he made up a bullshit excuse. After posting the problems on the thread, 1 hour later my post magically disappeared.

Also the Java RAT he is selling (SilentBytes or whatever) is literally the most shit rat i've ever bought. (most people can probably figure this out from the screenshots of it)

If anyone however decides to try out one of his products i STRONGLY advise to use PayPal so that you can solve any potential problems through it.

M?xim - *May 22, 2017, 12:21 pm*
(May 22, 2017 12:16 PM)Tom Cruise Wrote: *[CITE]* -
I can't believe how unrelated your argument is.
You are either not understanding any of this or your are just playing stupid.
What I have done on my thread is completely fine, nobody is expecting it to be FUD.

When you put an unrelated scan on a keylogger thread, users will believe
that it is a scan of the keylogger, that it is FUD. Which is obviously isn't.

Unbelievable.

Threshold - *May 22, 2017, 12:23 pm*
Just read the last part of the original post, looks like Tom Cruise provided the scan of the builder, not the stub =)

Marwix - *May 22, 2017, 12:23 pm*
How dare you include my posts as screenshot trying to prove that we are the ones to blame. Keep your filthy hands out of jLog and answer to our question; Why are you luring your customers?

YayHar - *May 22, 2017, 12:23 pm*
Regardless of Tom Cruises intentions, the
scan provided was misleading.
