Thread: [Resolved] Scammed by ? Rewind ? UID:3554865

FabianO - *June 2, 2017, 10:12 am*
I contacted user to purchase his $15 AGC. After sending the coins, he placed me on his ignore list and refused to respond to me.

Edit: He did send me the AGC in the end. Only after I made this thread. I did say I'll mark this as resolved but it doesn't seem right to block someone for over 30minutes and decide to send a message after a deal dispute. Use your own judgement.

Looks like a valid deal dispute. Glad that it wasn't a bigger amount.

Really good that its not a 100$ gift card, But why people started scamming for lower amounts? Isnt it weird?

Rofl i'm not surprised a telegram person supposedly scammed ?
but nonetheless hopefully it gets resolved

edit; he was just looking at this thread lul

I paid the user. I accidentally ignored the wrong member

He unblocked me and said it was a mistake and I've gotten the $10 AGC for now. Waiting for the $5.

You accidentally ignored the wrong member? Really?
Didn't you think that you never sent the code or anything?

Or did you maybe accidentally ignore him because you didn't expect a new user being able to make a deal dispute?

You should update the thread with his profile link :

No that's not the reason at all?
Why would you do that over some lousy $10
I do all my deals legit.
Please don't think of me as some sketchy member

You have a non-upgraded user sending you money and expecting a code in return.
Next thing he is blocked by you. And the best thing you can come up with is "accidentally"?

And no thank you, I don't want to resolve my rep with you.
Dude... if you were to check my PMs I've been getting harassed by 3 different members and I'm on my phone... you don't have to believe me. Thanks for ruining my day man. Hope you have a great life and stay safe.

Look, the only reason why you resolved this is because the guy opened a deal dispute on you. You are really sketchy.

And please don't blame me if other users are harassing you? I do my thing here, what other users do has nothing to do with me.
If users are harassing you, then you need to forward those PMs to Omniscient.
