Thread: General question about peoples earnings or what they say they earn

Joe_camel - *June 23, 2017, 6:14 pm*
Hello,

I`ve ewhored a while back for a couple of months. MY best day 150$. How do some people manage 100-300$ a day?

When could manage on a daily average 60$ a day for 4 hours of work.

Are people ewhoring for 8-10 hours a day that they are able to make such high returns or are they just lying?

It`s just that i don`t see how is it possible to make more than 15 an hour. And i keep reading about ewhoring that people are averaging 30$ an hour.

Are they lying when they say that much? Or am i missing something wich not to sound arrogant i think not as i`ve been doing it for a while and been talking a lot of advice but i keep hearing nothing new just the same thing repeated so i don`t know what to think or try

No they dont lie, I personally used to make that amount on daily basis. Its all about your traffics and approach also if you're not focused to get alot of suggar daddies this is basically impossible to achive a 150-300$ daily. On the other hand, if you know what are you doing then this should take only 3-5h daily to get this done :)

So i should try and get sugar daddies and that will make the diffrence?

Yes, if you have the right packs, and the smarts. These days those thirsty motherfuckers are getting smart, and want proof that you are who you say you are before submitting payment.

Yeah i know i always did verication pics. The fact is that some fuckers want video verification pics or show 3 fingers and stuff like that wich i don`t have in the pack

It's called hitting a hot bed. Some times someone only pays you $20. Sometimes you get a

goldmine.

I only got one gold mine my whole year or so e-whoring. The guy netted me a lot.
