Thread: [Delphi 2007 + Delphi Distiller v1.85 \[DOWNLOAD\]](#)

VxV3n0mxV - March 1, 2011, 3:28 pm

First I would like to apologize for posting this twice but my last threads download like no longer works and i can't edit it.

1. Download Delphi 2007 and Delphi Distiller: <http://www.mediafire.com/?qsdbaci2m4yonhm>
2. Run the Delphi2007 installation
3. run Delphi Distiller and make sure you check "Remove Delphi 2007 License Check". The rest is optional.

I dont think so.... Virusscan?

Edit: Trying it now.

codecaine - March 3, 2011, 4:47 pm

Distiller 1.85 also has activate for delphi and c++ 2010. If you don't trust this link just google delphidistiller to get it.

VxV3n0mxV - March 5, 2011, 7:32 pm

i'll post a virus scan (tomorrow because the files are on my desktop) for distiller but i can't run one for the installation cause it's too large. If you don't trust me simply don't download it.

codecaine - March 8, 2011, 2:12 pm

Distiller is not a installer file just an application.

VxV3n0mxV - March 8, 2011, 5:00 pm

by installation i mean't the delphi 2007 installation

Heres a virus scan for Delphi Distiller from Virus Total:
