Scammed by Kaleb™ of $247 UID - 3384515

I was unable to write a thread for my serious loss of money because of sickness.I am fine now and ready to display the fraud of Kaleb.
I am in always search of gift cards and i keep posting on threads as i resell them for btc.I got his message on hf saying he got $375 gift cards. I directly asked him to add me on skype. He was ready to give me gift cards at 65% for btc. $375 gift card for $243.5 btc. I asked him to do in parts but he rather asked me to see his reps.
For confirmation he messaged me on Hf saying "You are buying my 375 amazon for $243.75 btc" on my request. I then somehow trusted on him and went first as i was selling gift card for 90% and making good money.
I was in hurry and without researching i went first for full payment of $243.75 btc.

As soon as the transaction is completed, he started his drama saying he will wait for the pending confirmation i.e (3/3) on blockchain. I realized my mistake upto some extent but i was not sure. After 30 minutes it was confirmed and i keep messaging him on skype asking him to send me the codes or return my money. Did tons of call asked some of hf members and came to know he is a scammer and about his scamming threads.

I got his last message saying ' It confirmed.I'will get codes now.
But He never came back again...
Sorry i went in little detail but it was really sad for me as i resell day and night to earn good.

I got all the proofs.

I don't even know what the fuck to say, if you deal with scammers, it's your own fault.

Prophett - *July 27, 2017, 10:18 am*
That's unfortunate. You shouldn't have gone first with BTC, regardless.

That's a little unfair of you two. Yeah he should have been more careful when dealing with this guy, but you cant go around blaming the victims. no matter the circumstances OP got fucked and its no ones fault but Kalebs for being a piece of trash.

I am not blaming, but it's just a bit pathetic, why dealing with someone who has opened scam reports?

He gets a scam report everyday.

Why do the owners of this forum ban people slowly? Several people have multiple scam reports in a short time period and they aren't doing shit. I'm also talking about how quickly they ban people with low rep ...

1. HF will not be held responsible for deals made by members. All deals at your own risk.
3. Do not contact staff about a deal dispute.

Staff don't get involved. Simple.

Rip I guess he used stolen BTC funds to buy something off me. He used minimalist as middleman. Sorry you got scammed dude

Omniscient - *July 27, 2017, 10:41 pm*
Leave him a valid scammer reputation and create a Deal Dispute Database entry.
