MOVING TO VICES :) :) :).....

DeadKube - *August 18, 2017, 11:10 am*

Some coils are cheap but don't last some. Some fluids are cheap but aren't great for your coils. It's always a gamble. Some places offer lower prices, some don't.
In my two year vaping experience I've found only one liquid which can make your coils last longer: Heisenberg. It's moderately priced but it beats having to buy a new coil every 3 days or so.

It doesn't matter where you buy it from, it's all the same except for the price.
