Thread: [\[FREE\] Hosting YOUR GFX/GFX Pack! \[SPEEDY DIRECT DOWNLOAD NO SIZE LIMIT\]](#)

Grand Pootis - March 2, 2011, 3:59 pm

I currently own a Spam unlimited FTP account, which means 9.54 TB of storage and transfer.

I would like to help out the HF community by offering to DIRECTLY (direct, speedy downloads) host your GFX and packs.

I can host your signatures, and even GFX packs, even if they are multiple gigabytes.

PLEASE let me know if you want this right now :)

Thanks!

Just post below and I will allow you to use my server! I can host up to 10 TB.

If you want me to host something, post the link on a file host.

DO NOT give me Shitcash or adf.ly.

I will not bother.
