Thread: 1.7k Snapchat earnings within a couple hours.

Autophobia - *September 20, 2017, 4:59 pm*

So some of you might of saw my old thread, today i tried something different and did a paid raffle where i auctioned off a lifetime "secret snap membership" something i charge 10 dollars a month for to see all the uncensored girls on my snapchat for those of you who didn't see the old post i run multiple different somewhat of a ewhore snapchats. They are just snapchats with 1-10k views per snap where i post fan submitted nudes, On the main account i cover the private areas like nippes and vaginas so snapchat doesn't delete me but i offer a uncensored secret snap for a fee.

So as i was saying i offered a lifetime membership as a raffle for 20 dollars and i told them id keep it up for only a few hours so if i sold 10 tickets its randomly picked out of 10 if i sold 1000 its randomly picked from 1000 so i went to the store, played a little runescape then got some food from tacobell and came back to this

Not bad not bad.

currently my monthly bring in with this account is around 10-15k this one is my most profitable account, My smaller accounts with 1-2k followers are only bringing in a few grand a month.
for those who ask why i use shopify its because they have a digital download app that allows me to sell the secret snapcode without having to manually interact with 1000s. The buyer goes on my site checks out and gets a automated email with the code. So thats why i use it.

Holy fuck man you are a GENIUS a GENIUS

Also how do you advertise it? You said you post multiple girls so the people know you're not a girl? And you just post multiple girls nudes on your premium account?

I got 1k views on my e-whore snap never posted anything about buying nudes etc yet.
How much could I earn with this account?
