Thread: [Need Help with Paypal \[Urgently\]](#)

Harsh Gupta - March 6, 2011, 12:06 am

Hello everyone,

Today when i opens my paypal account i see this message:

[img]http://i.min.us/ijzgvo.bmp[/img]

For more information go here:

<https://www.paypal-apac.com/india/>

What does this mean? My paypal account is not verified & not connected to the bank account so what will they do? Will they eat my whole money OR This announcement is only for verified paypal accounts.

Please give suggestion to me so that i can take correct steps to reslove this problem.

This guide answers some of my question that

Code Two things that are unclear about this 7-days limit are:

1. What will happen if for some reason you cannot access your account for 7-days? Will Paypal do automatic withdrawal to Indian bank account OR return payments to original senders? Or just forfeit the pending PayPal balance!

2. PayPal charges INR 50 if you are withdrawing less than INR 7000. This 7-days limit may force you to withdraw smaller amounts even if you don't need them in India.

They are unclear & i want clear answer.The problem is that i don't have bank account so what should i do to protect my money.

Please give suggestions & try to help me.
