Hey guys this is my Twitch View Bot website / service. We've been running for about 3 months now.

https://views.run/

The layout / design is a work in progress and still needs tweaks (especially in responsive/mobile format).

Please provide any constructive feedback, don't be afraid to nitpick.

Cheers ?

That's the main request we're getting, it's looking like a monthly plan / panel will be ready in the early weeks of December.

Thanks for the feedback!
