eBay Method

Only 10 copies will ever be sold, in order to keep the method as unsaturated as possible.

This method is easy to set-up and it has potential to bring anywhere between $50-$500 per month with little to no effort.
Initial set-up can take a while but after that it just should be a daily routine for easy money.

Method Requirements:eBay Account

PayPal Account

1.5 Hr per day

Some investment money ($20 for starters is enough)

Price is fixed, $25 BTC or $20 ETH.

Refund Policy: I'll provide a no-questions asked refund if you provide me proof that the method isn't working.
It's in my goal to provide a good method. I'm not here to scam you out of your money like other, fancy thread 30 eBook sales threads sellers.

No vouch copies will be given.
However, we could work out a deal with a MM to hold the funds until you make profit.

INTERESTED? Send me a PM.

Thank you.

All inquiries are welcome.

Trusted members can find a MM who will hold the funds until they make profit, making it so you don't even need to trust my words on anything.

Involves selling something (I provide you information on how to get that "something") on Ebay.
You'll be making atleast a 2x profit off every sale and it's in demand.

Got Skype or Discord? I already sell on eBay frequently and know the work arounds, just want to make sure I'm not buying a eBook which tells me to sell something that I already sell.

In a certain extent, yes, but also it has a few unique points and scaling suggestions for launching several different niches.

Let me know if we could set up a plan for me to dedicate the work and then pay you the first sales I get.

This method will require an investment of 10-15 dollars for starters.

Also, I'll take payment in ETH only, though I'd be okay if you pay me after getting the first sale.

No, this isn't about selling student licenses of AutoDesk software on eBay.
