Thread: [5$] Native Encryption for you / Runtime FUD | ASM | Private Crypter

Protect0r - *October 22, 2018, 11:50 am*

http: //image.noelshack.com/fichiers/2018/43/1/1540234007-hf.jpg (remove the space before to see the image).

Hello!

I offer my encryption service to encrypt your files:

Your files will be FUD at the Scantime output as Runtime,
I have 100% coded my own Crypter in VB6 / ASM.

Features of encryption:

No dependencies (No need for a.net Framework on the machine, 100% native).
Randomization of the code (USG) each file is 98% unique.
Supported NET applications.
EOF (End of File) support.
Install and startup option (You choose the desired options yourself).
File Binder (I attach the desired file to your encrypted file).
Multi Exe Protect (Possibility to encrypt the binned file).

Your satisfaction is my main priority, at the output the file will be 100% FUD, whether Runtime or Scantime, a scan will be delivered with your encrypted file.

Payment possible in Crypto-currencies[ETH,BTC].
If you have other options, I'll take them.

Why charge for this service?
This service is not free, because the quality of the product and the fruit of my work is also paid for, if you go through me, you will only get quality.

Protect0r.

teddy76db - *October 22, 2018, 2:46 pm*

Vouch for this service !

Thanks dude, 0/36 on Scantime and REAL FUD Runtime !

Protect0r - *November 1, 2018, 12:55 pm*

yup can you crypt my file? for a review

Protect0r - *November 1, 2018, 3:59 pm*
(Nov 1, 2018 03:52 PM)P0K3MON Wrote: [CITE] yup can you crypt my file? for a review
Sorry you need to pay for crypt your files, because this is a private stub...

Friedrich Nietzsche - *November 1, 2018, 4:04 pm*
What "randomizations" do you perform in the crypter?

Protect0r - *November 1, 2018, 4:08 pm*
(Nov 1, 2018 04:04 PM)Friedrich Nietzsche Wrote: [CITE] What "randomizations" do you perform in the crypter?
I purpose a automatic heavy code randomization (everything chosen randomly)
i added a anti-memory dump on my crypter.

When your file are crypted, you don't need dependencies for run the file (no 2.0/4.0 or other).
Your output file are native !

Protect0r.Very similar to DarkEye protector thread. You just bought their protector and then start reselling crypts? That would also explain the low price for "private" stub. Lmao

Sillee - *November 4, 2018, 11:11 am*
Do you have any other contact methods?

Protect0r - *November 4, 2018, 4:58 pm*
MP for more informations, is not a Crypter on HF MarketPlace, it's my Crypter !
Thanks

I will work on your file for getting a 100% FUD file Scantime / Runtime, i send you a pm when i finished :)

KryptinWoods - *November 17, 2018, 8:16 am*
I do not recommend dealing with this user. First off, it took him forever to crypt my file. To compensate, he said he would crypt 2 other files for me. When I got the file I tested it and it did not work. I was like whatever, not a big deal. A week later I try to get another file crypted like he said he would and he refused to do it. Since then he has been ignoring my messages. Horrible service 1/5 stars.

Protect0r - *November 17, 2018, 8:30 am*

You sale trashing, thanks, i sended you some PM with your problems, i already crypted your file, after 1 week you want another crypt but you need to pay again, i work hard for make .exe FUD Scantime / Runtime, i paste the message i sended :

"11-06-2018", 10:25 PM
To: KryptinWoods
anonfile.com/A*******b1/Desktop_zip

"the password is 123, i have scanned the file and let the scan result in the archive fud scantime and runtime, best regards."

File crypted the 11-06-18, if you contated me after 1 or 2 days i will be ok, but here 1 week it's too late, it's possible too you mass spreaded the file and now it's detected this is why you come now i think sorry if you need a new crypt you need to pay thx"

You told me : i used the crypted file for mass spreading too...

And you want a Refud 1 week + after ?

Don't sale trash again, good bye...

Vagner - *November 17, 2018, 9:15 am*

Don't cry to scam for NOTHING !!

Or ban, i said you , you need to wait for your 100% file...

As you pollute my sales topic you will wait and be the last to have its encrypted file, I put my respectful customers first!

and i never said you don't paid but i didn't received the payment, again a noob, if you are a noob don't use my services !

BlueHorizon59 - *November 18, 2018, 9:51 am*

Amazing crypting service, i recommend this service because :

Outputs are 100% FUD : Scantime and Runtime,
Hidden startup are crazy because you can't see your file in the MSConfig and Startup options, others crypters don't doo that.

Very good stability and long time FUD, i crypted my first file with this guy the 26/10/18 and today i got the first detection !

PS : the coder need one moment for Fudding your file.

Thanks you Protect0r, don't listen other noob's people....

mygot2 - *November 18, 2018, 12:48 pm*
How do I make an order? Can I open a contract or?

Protect0r - *November 18, 2018, 2:53 pm*
Hello, in private message thanks

Thanks for your review :D
Method to follow for encrypt your files :
1 - Send $5 in Bitcoin to this address:

37XMVPAiZuYifRzmFpd9198TMaae3iAYo2

2 - Send your files to a Host with your file(s) in an archive and send your file(s) to Sendspace or Mediafire!

3 - Send me a Private Message on Hackforums:

- Bitcoin Transaction Confirmation or Transaction Hash.
- The link(s) of your files to encrypt ($5 each).
- If you want a Hidden Startup or no.
- Which file you want to encrypt (RAT,Keylogger, or legit application).

Once this is done, I will come back to you as soon as I have finished encrypting your files, I set up this system to process my customers' orders as soon as possible, thank you for your cooperation, cordially, Protect0r.

PS : When i send your crypted files, i give you a Runtime and Scantime scan.

?

hello i buy a crypt , i send you pm but you have inbox full and i cant send you message please ceck . thanks

Vagner - *November 20, 2018, 2:36 am*
i also buy 17 november crypt. Today i report to moderators this theme to scam. If i don`t have crypt today

teddy76db - *November 20, 2018, 7:41 am*
Relax the coder need some Time for Crypt your files, you think it's so easy ? Do it yourself !
I spoke with the coder, he doing the work manually and don't use a simple crypter with 'Encrypt' Burton, i see a lot of noobs here, if you are not happy but a crypter software fud for 2 days and let the Pro Users with This services, the coder will deliver your order at the time, is not a scam, i can proove you ...

Just wait,don't spam and don't trash the buying thread, if you do this you will wait more :)

PS : You have 9 posts only, and post on Crypter Thread, if you are not happy don't buy services and make your files yourself, if i'm able to give -3 for posting trash everywhere i give you...

Vagner - *November 20, 2018, 3:41 pm*

Hello!

I offer my encryption service to encrypt your files:

Your files will be FUD at the Scantime output as Runtime,
I have 100% coded my own Crypter in VB6 / ASM.

Features of encryption:

No dependencies (No need for a.net Framework on the machine, 100% native).
Randomization of the code (USG) each file is 98% unique.

Supported NET applications.
EOF (End of File) support.
Install and startup option (You choose the desired options yourself).
File Binder (I attach the desired file to your encrypted file).
Multi Exe Protect (Possibility to encrypt the binned file).

Your satisfaction is my main priority, at the output the file will be 100% FUD, whether Runtime or Scantime, a scan will be delivered with your encrypted file.

Payment possible in Crypto-currencies[ETH,BTC].
If you have other options, I'll take them.

Why charge for this service?
This service is not free, because the quality of the product and the fruit of my work is also paid for, if you go through me, you will only get quality.

Protect0r.

Hi, Can you send me your contact?
