Where can i Upload And Scan Crypted Files ?
That does not share or send the file to antivirus sites.
all the threads about scanning files are outdated.

ScanMyBin.net for Scan Time and Run4Me.net for Run Time. They aren't free, but they work just as intended and if you're serious, it is worth it.

spyralscanner.net
Recommanded Site

Yes, spyralscanner.net is distributing files, scanmybin is the best scanner i know and not really expensive (40 scans for 10$) so .....

ShMartiLiveMsX - *November 18, 2018, 5:36 am*

any free scanners that dont distribute file?

Is that new? I haven't seen that one before.

It's advertising virtualcrypt so probably doesn't distribute, thanks for linking this!
