Thread: Mr Professor giving out negative popularity

Mrcucubaux - *February 7, 2019, 5:38 am*
This guy is just giving out negative popularity if you have a different opinion, lol.

I posted here https://hackforums.net/showthread.php?tid=5850536&page=73 that I tought that you can find his method on youtube easily, for free.

He deleted my post and gave me negative popularity :))).

I guess I'm the low quality member...

Oh yeah, and he voted my thread 1 star without even buying my method/ trying out my method.

Proof:

Maybe he didn't like the fact that you posted on his sales thread invalidating his product..

He was the one who first voted my thread 1 star without even buying/ trying it.

Then I wanted to see who this guy was and I saw his thread, I just told him my honest opinion, didn't trashtalk or anything.

happy to see these threads being made even after the rep -> popularity changes

Worst thread ever. Try not to report about popularity next time.

I just wanted to know why he would do that. We didn't even know eachother and out of nowhere -star -popularity.

I would say power abuse but I would just get more -rep.

It's not about popularity, even tought the title say it, is more about how some people abuse their power so other ebooks will have a bad eye on the public.

But that's just my opinion :)

can't say for sure why he did it but something along the lines of you being a minor inconvenience to him in some shape or form. just take the loss--if u can even call it that--and move on. it's not power abuse honestly it's just some sweaty virgin that thinks gate keeping regular members is somehow doing a service to the community. the only niggas that have power on this forum are the ones that donate thousands of dollars to omni.

What you did is basically sales trashing, his reaction was appropiate to the context

Wasn't he's move sales trashing too? I mean at least I gave a fair opinion, he just 1 starred my post out of nowhere.

There's no policy covering hurt feelings. You'll have to deal with it.
