Ember Temperature Control Mugs | Ceramic and Travel size | 45% off

This is a 100% physical product I will ship to your address after payment.

Precise - Ember keeps your Coffee or tea at the perfect temperature from the first sip to the last.
Simple - Ember is simple and elegant. No buttons or complicated instructions. Just rotate the dial at the bottom of the mug to adjust your temperature.
Customizable - Ember is a connected device that can be used on its own or through the app. The app allows you to remotely change your temperature, “Name” your mug, create presets, and choose notification preferences.
Push-to-open leak-proof 360? lid; 12 ounce capacity. Dishwasher safe lid. The Ember travel mug was designed to last an average of two hours on the go. The two hour battery life is expected when pouring in liquid hot, and a set temperature of 54°C. If you like it cooler, your battery will last longer, and if you like it hotter, battery will decrease slightly
Battery lasts about 2 hrs on full charge; Includes charging coaster

Hi,

Its possible to order more than once to same shipping address?
Would like to resell em and buy at least 5 of it.

Thanks in advance
