LaFerrari's Homework Service

As I have a lot of free time right now, I have decided to start a homework service.
I can do essays, calculus, accounting, economics, physics, chem, french, italian, online courses etc. (message me for any other subjects)
I have never finished a class with a grade below 95%, so you can only expect the best quality and price from me.

Message me with what you need done and I will respond quickly with a quote (will beat the quote of any competitors)
I'm able to get assignments done last minute as well.

I accept PP, BTC, ETH.

PM me. ?
