Thread: Can anyone recommend a gaming build?

gday mate - *March 19, 2019, 12:10 am*

My friend has a budget of $1500 AUD.

Thanks in advance if you can help!

You should also add what the budget needs to include. Mouse? Keyboard? Monitor? Just the tower?

Some recommend for you from some parts:

CPU: AMD Ryzen 7 3700X
Motherboard: ASRock B550 PRO4
Video Card: EVGA GeForce RTX 2070 Super KO 8GB
Memory: Patriot 2x8GB Viper Steel DDR4-3200
Solid-State Drive: XPG SX8200 Pro 1TB NVMe
Case: Thermaltake V200 Tempered Glass RGB

Also 2070 is great but you might as well het 2060 for $250 less.
