Thread: [\[NEW\] Twisted Autoblog Method - Complete Video Series - EARN MONEY IN NOTIME!](#)

freakx6 - March 18, 2011, 3:19 pm

all credits goes to shezboy from BHW.

(I didn't made this... I found it and it was very very usefoul for me...try it on)

I created a thread a couple of days ago in the 'Blogging' section giving a step by step of how I set up my AutoBlogs and link them to a Twitter account for easy traffic and cash.

It seemed a popular thread with many PM's asking different questions.

So, to give back to this excellent forum, to which I owe so much to, I have created a complete video course showing everything thing, step by step, of how I set up these autoblogs that are linked to Twitter accounts.

I think this is easy enough for a total noob to follow and do plus there are parts that some well versed members will also find useful.

The TWIST of this method is that is does not rely upon, need or use Search Engine traffic. This means that you can put down your keyword research tools for this one as your traffic is gonna come from Twitter and that traffic is gonna convert in to cash in your pockets.

I've split the videos up (to make them easier to download) and to save some experienced members the need to download videos that they won't need to watch.

They're also in the correct order if you wanted to watch this entire method from A to Z. I've left nothing out and it is my way of putting something back to this forum and the great people who help to make it what it is.

—

My Twisted AutoBlog Method For Easy Cash

The first download is a PDF which is a resource file that you WILL need. There are links in this file that you'll need for this method so make sure you do download this file
[LINK](#)

This download is all of the plugins that are used in the autoblogs (apart from WP Robot which cannot be shared
[LINK](#)

This video is a brief intro to the AutoBlogs that I set up
[LINK](#)

This video is how to install a WP blog via your webhost cpanel

[LINK](#)

This video shows you how to upload the plugins to your blog via an FTP program

[LINK](#)

This video shows you how to activate and configure those plugins

[LINK](#)

This video is dedicated to the WP Robot plugin and its settings

[LINK](#)

This video shows the posting settings for WP Robot

[LINK](#)

This video is dedicated to the StatPress plugin and shows how fast you can get your brand new autoblog spidered by Google

[LINK](#)

This is a monetization video showing how to increase your blog revenue

[LINK](#)

The vide here shows my little known method for building your VERY targeted Twitter followers. This works so well.

[LINK](#)

The final video is the conclusion

[LINK](#)

It is VERY important that you download the PDF
(which is the first download link)

as this is a resources file that contains some important links related to the method and videos.

Thanks for the tut! Awesome ;)

daziam - July 3, 2011, 3:11 pm

shame they are all on # ... going to take me ages to download them.

Also I think if your autoblog idea really worked you wouldn't rely on a few cents from adf.ly and # just my two cents.

Rick maahea - July 6, 2011, 5:08 am

I've seen autoblogs pretty successful in the past. I need one very badly right now as I am currently unemployed :-(what is worse is the power cord to my Mac bit the dust so I am relying on my thin killing iPod touch for all my Internet useGe till I can get the fuel money together to drive 160 miles to the nearest Apple store so they "can inspect my cord" to make sure it is not damaged before they replace it.

YEEEA.... Go Rick, go Rick, go Rick!..

kingm0ve - July 18, 2011, 2:39 am

Hej man plzz upload to mediafire ok im waiting for you

Gandia - December 1, 2011, 1:53 pm

The video 5 and 6 are down (the ones about WPRobot) :S can someone upload them ?
I will upload the others in my ubuntuone account (free hosting...)

waw.so how many income you get in 1 month ?

xerox4thew1n - December 3, 2011, 10:00 am

u get nothing in the first 4 months than it gona go like a rocket but it will take atleast 10 months to start count money and till than u should have made 100 blogs + or otherway u just wasted ur time ..

Dude rly belive me autoblogging wont take you anywhere , if u want instant money than visit this site here ----> <http://117541748699> Here i describe why Autoblogging doesnt work anymore and i describe some technics how you still can earn with normal blogs and other methods. But there is nothing like "Make 1000\$ in 2 days or Earn 500\$ a weak steady income and such crap" my Methods are real and will give you money for afford (little afford = littl money- more afford = more money) Yes you have to work for your money but its still less than you would work in the rl , the internet can still make you rich but not in 1 week and maybe not even in 1 month but the more time u spent the more money you get and after a while it will become autopilot and u will be at the same level as me right now .. I hope my link did help you and you understand the method if not than here is an noob friendly version <http://117541748699>
