Skittles- - March 19, 2011, 6:38 am

If your complaining about a sharecash link, just use a downloader or a premium account. Thanks for this, will come in handy!

CarpKing - March 19, 2011, 11:03 am

Does she wave or anything?

jgwentworth - March 19, 2011, 11:15 am

Yes she does, please note that you will have to edit the clip in order to get certain clips

jgwentworth - March 19, 2011, 2:54 pm

Ethernal Five - March 19, 2011, 3:23 pm

Yea but please make another mirror, like adf.ly, because i cant complete surveys for some reason :(

jgwentworth - March 19, 2011, 4:07 pm

Not my problem; you are free to use a proxy.

#Drake - March 19, 2011, 5:58 pm

jorjus - March 19, 2011, 5:59 pm

You dumb? This is the RAW file; I would rather let the users cut the files up themselves for their own specific needs.

I ain't trolling..I just went through the video trying to edit it, make it worth anything..no wave bro, she moves her hair around a lot..aka making a good transition....hard, (kinda hard when her hair is completely diff).... But whatever, I digress. Not trolling at all, thanks for the share..

Pyotr - March 20, 2011, 12:09 am

Thanks. Clicked the link, and while waiting to do the crappy survey it unlocked.

Will be donating to HF soon ?

Swagmaster - March 20, 2011, 12:21 am

I've been using Cyberlink Power director... it does the job...

jgwentworth - March 20, 2011, 8:09 am

Cyberlink Power director is good, but you can use simpler programs like even Windows Movie Maker if you are a nooblord.

dave3 - March 20, 2011, 12:51 pm

video works perfectly as is for me, thanks again

jgwentworth - March 20, 2011, 8:20 pm

I learned from someone that the video file became corrupt, uploaded a new version.

TheDubWubCub - March 20, 2011, 9:34 pm

dave3 - March 21, 2011, 3:47 pm

she is a horny milf lol xD

xistu - March 23, 2011, 6:05 pm

Could you or someone else upload this to somewhere else? I can't seem to download it there :s

dave3 - March 24, 2011, 10:10 am

get a \$harecash downloader

Hatred - April 20, 2011, 5:13 am

Not easy to find a shitcash downloader now since they decided to block Proxies, making them all not work.

Everyone know's \$harecash just doesn't unlock files, even after completing the survey. It's just wasting our time so you can earn a few coins.

I was really looking forward to getting this, looks really decent. Typical \$harecash would let me down though. -.-

Lol no kidding makes 600 ewhoring but then gives a spam link to make pennies. I think it's more like he made \$60 tops.
