Thread: I will make you a SIX-FIGURE Shopify store & MENTOR you to $30k/mo. [1 SPOT LEFT]

Kavalli † - *January 14, 2020, 10:51 pm*

Do you want to learn how we took a brand spankin' new Shopify store to over $5,000+ in sales in one day? We've been consistently making $30,000 - $50,000 a month AT LEAST, with Shopify & Dropshipping + Facebook Ads for the past 4-5 years now and I want to give a few people the opportunity to join me, and learn everything i've learned in the past 5 years that's allowed me to achieve numbers like this.

We took this store, that we setup in literally 2 hours to over $5k a day with the same strategies and tactics that I will be teaching you within this mentorship service. Exact same.

Look, I'm not gonna sell you a fake dream. I'm not saying this is gonna make you rich over night, but if you are or ever wanted to become an entrepreneur, or if you ever wanted to have an online business then this mentorship is a MUST, because you need to know how to advertise profitably. In this mentorship I'm gonna teach you how to find awesome dropshipping products, setup killer stores that convert, and most importantly, I'm gonna teach you how to advertise which is essential for ANY business (online or offline).

_____

SPOTS AVAILABLE AS OF TODAY

Basic Package ($497): 3
Premium Package ($997): 2
TOTAL NUMBER OF STUDENTS SO FAR: 14

_____

The number #1 question i get asked is why is this so expensive?
Our prices range between $500 - $100. Would it matter whether or not you paid $100 if you learn how to create and scale 6 figure online stores & businesses? Also what I will be teaching you, you will be able to use for the rest of your life with any business you start. The Facebook Ads training you will get from is not only applicable to Shopify, you can apply it to any business. Also I DARE you to go out and find someone who offers this exact service with as my experience as my team and I for a better price. If you do, ill mentor you for free.

_____

Basic Package: $497 ($2,000+ in value)

- 1 Done-For-You shopify store built from scratch by me with a premium $200 theme, built the same exact way, with the exact formulas and strategies that i use to build my own stores that hit well over $30,000+/mo in sales. This package is for those of you who are serious about this. Who have a a little bit of money to invest and want to do this the absolute right way. With this package, you and me will be working on your project TOGETHER. 97% of my really successful students who hit well over $30k/mo purchased this exact package. You will get the absolute BEST training, i will set you up with the absolute best STORE, ill literally build it myself, AND i will make your Ad videos and help watch over your Ads so you have the absolute highest chance of success.

Why you need this?
Look, Shopify + Dropshipping will NEVER get saturated. It's the easiest business model, and also the least expensive business that you can start right now that has the potential to take you to the six figure club. It's an ABSOLUTE no brainer. This business model just works, and other big companies have been doing it for years. With that being said, I've literally losts thousands and thousands of dollars in testing, and you will too if you jump into all this stuff without any real knowledge, a good store, and a good product. That's why this service is so important if you're SERIOUS about improving your financial status.

Honestly, this service is great not just because it teaches you how to make money with Shopify, but with my course... YOU WILL LITERALLY BECOME a Facebook Ads expert. You'll be able to 1,2,3 hell, even 10x ANY business. (For example, your family restaurant could even benefit from this training).
[/size][
Why Choose Me?
With me you'll have peace of mind knowing you're getting the absolute best information. A lot of people get lucky with 1 store and create a shitty course... That's not the case here. I've been in this game for over 8 years now. My first shopify store hit $90,000 in sales before Dropshipping was even a thing.[/size]
[/size][/size]

Plus my record on this forum speaks for itself. I've been making bank with shopify since their UI was green, back in like 2015 all the way up until now. 7+ Years of experience in Online Marketing, Shopify, Dropshipping, Sales, advertising and marketing.
[/size][/size]
I've spent over $100,000+ on ads the past few years.
I've spent well over $100k+ on ads the past 2-4 years. I have over $100k in advertising experience and I'm MORE than qualified to teach you. Here's just a few of my ad accounts.

Why Now?

First and foremost, time is money. Every second you're not in my mentorship you are losing money. I mean it too, because the stuff I teach is valuable for any business, any niche, any industry. Shopify + Dropshipping is just a vessel to use these marketing strategies on. Now we're in Quarter 4, holiday season, markets hot. If you want to get into this stuff, now is the time, and im the guy so lets get to it.

Roberto is good at communicating all through our time zones are totally different so that's a bummer ?
Starting to work on my social media accounts now and just got his shopify course with videos where he explains how to do it.
Soon i will be ready to launch the store with some nice ads!

I recommend Roberto and look forward to see what this product can make, i will update here when i start earning $$$! ?

(Feb 7, 2020 03:53 PM)SilverAmerican Wrote: [CITE] Vouching for Roberto here. Was very patient with me while we waited for my investment funds to get to me after a lot of setbacks. As soon as I paid him he got working on everything.

Haven't got the store yet but from what I have seen it's going to be good. The Facebook Ad lessons themselves make it all worth it. Facebook Ads have been proven over and over again to be extremely effective and the fact that most people don't how to correctly advertise on FB or anything really means having that knowledge greatly increases your ability to make income.

I'll update this with my store and such once I get it and how the mentorship goes. Roberto has been very helpful answering all my questions as well.
(Feb 16, 2020 01:43 PM)SilverAmerican Wrote: [CITE] Leaving my review here. There was an old thread I used to get his services and this is the new one. I got the store and yes it looked absolutely amazing, Roberto runs through everything with you and makes sure you have some choice in what goes on.

I'm moving onto ads and social media right now which is pretty quick. He actually has a website with courses he made himself that you can go through at anytime to review and learn new things. It's fairly easy. Launch for ads and such are tomorrow and will update this review with any sales I get this week.

He did an amazing job truly.

Serious question.

Why not offer refunds besides the 10 day store creation? If you're mentoring, products, ads, and course are as good as you claim they are you should be able to guarantee the results.

I'm not trying to sales trash genuinely curious.

Not looking to sales trash but was just curious why someone would teach someone else to make 1000$/day while he himself have over 1000$/month and his one of the best made per month was approx 3000$/month.
That's what your op actually says.

Why would someone make $10000 if they're already making $5000? It's the same reason I started my mentorship. Of course as a normal human im always trying to increase my revenue, my streams of income. This is a good way for me to make some decent money on the side, use it as my ad budget for my future projects so I don't have to pay out of pocket for anything, and I'm even contributing to the forum.

With this service, I make up my ad costs & I help beginner entrepreneurs get started as well for dirt cheap. Not to mention I get commission from Shopify as well.... This all ties in to my work.

[b]Frequently Asked Questions:

Q: How long until the store is delivered?
A: Since these stores are custom built from scratch, it takes a bit longer than usual. We really take

our time so we can give you a store we're proud of. A store that doesn't look like generic Dropshipping store that consumers hate. Estimated delivery is 4-7 days.

Q: Can we do half payment first, and half payment after delivery?
A: Obviously not, please don't ask me for payment arrangements. Not possible because a portion of the money goes to building your store.

Q: Is there refunds?
A: I will 100% refund you no questions asked if your store isn't delivered with 10 days. Other than that no.

Q: What if the store doesn't make money?
A: I'm equipping you with a money making machine, the best store you could possibly get, along side the best training course you could possibly get. It's your responsibility to use it and get results, like my students have.

Q: Can i get a vouch copy?
A: Lol.

I would if I was Nostradamus and could foresee the future bro. Your results depend on YOU, and your work ethic and determination. I just provide the training + vessel. My job is to teach you guys exactly what’s working for me right now so you can replicate it, nothing else.

If somehow I could guarantee 5-7 figure results for EVERYONE, I would charge way more than $600.

With that being said i currently have students who are making 5-6 figures from this service, just not from this thread (old thread got deleted) so can’t provide vouches. So definitely possible.

Hey, so the higher the budget the better but you can start with as little as $5-$10/day

Another Shopify Guru. You literally promise to take your customers to six-figures in sales and can't even promise to refund them if they don't see any results. Why is that?

"Another shopify guru" You're so clever, you've probably seen SO many Shopify gurus on this forum in your whole 16 years of life on this planet right? I consistently have to re-explain the same thing over and over to a bunch of children looking for a get rich quick scheme for some reason. (granted there are a few smart people on here too).

so here we go again...
Im just providing a vessel (store) and the training you need to make that store successful, it's a MENTORSHIP. The results depend on you. If you join my mentorship, spend 15 minutes a day and are absolutely braindead then you're NOT gonna make money and I'm NOT gonna refund you.

With my training, the money you make is suppose to be the by-product. I focus on teaching my students what kind of products work, what kind of stores work, and how to run ads and scale any business to 6+ figures so they can go out and replicate my success be it with shopify or their dads plumbing company.

I don't understand what more could you want from me. I'm showing you REAL-TIME results, and I'm teaching you how i do it for $600 it's an absolute STEAL.

Sholi - *February 4, 2020, 12:17 pm*
"1 MONTH PREMIUM 1 on 1 Mentorship with me. I will set up your store for you, answer any questions you have, and PERSONALLY help you take your store to six figures in sales. I will cover everything and anything with you personally."

"I want to make you a six figure, $30,000+/Month Shopify store (training included)"

Sounds like you're promising results to me, why are you afraid to back it up? Of course it depends on me, but what if I actually put in the work, spend the hours, and do everything step-by-step but still end up losing money in the end. Am I then considered braindead and ineligible for a refund?

Put in the work and you'll see results, I have students who've put in the work and have hit six figures and I have clients who don't put in the work and don't earn as much and they know it's on

them. I have 10+ mentorship contracts 0 complaints, 0 scam reports because my shit works. I deliver my end of the deal real well & that's why my businesses/services on and off this forum have been successful, because I give what I actually offer + WAY more and I actually go above and beyond with my clients.

To save myself from headaches, I don't offer refunds. Trust me, if it was allowed, this thread would be flooded with real previous client vouches (my vouches are from my old thread and can't be posted here). I understand your skepticism, it is a hefty amount of money, you should be skeptical, but I just launched this thread. Come back a month from now and base your decision off of the contracted reviews I'm about to get.

Roberto is good at communicating all through our time zones are totally different so that's a bummer ?
Starting to work on my social media accounts now and just got his shopify course with videos where he explains how to do it.
Soon i will be ready to launch the store with some nice ads!

I recommend Roberto and look forward to see what this product can make, i will update here when i start earning $$$! ?

Vouching for Roberto here. Was very patient with me while we waited for my investment funds to get to me after a lot of setbacks. As soon as I paid him he got working on everything.

Haven't got the store yet but from what I have seen it's going to be good. The Facebook Ad lessons themselves make it all worth it. Facebook Ads have been proven over and over again to be extremely effective and the fact that most people don't how to correctly advertise on FB or anything really means having that knowledge greatly increases your ability to make income.

I'll update this with my store and such once I get it and how the mentorship goes. Roberto has been very helpful answering all my questions as well.

Might be interested in getting a store set up and looking around.
How do you find a niche? Is it something we decide or do you pick from some of the more popular ones?
Is this selling digital or physical goods? And do I have to go out and find them or do you set it up?

Hey man thanks for reaching out. So I do product research for you, i find a couple of products, and we go over it and we choose one together. Of course, if you have your own product then that works too. It's mostly physical goods, and i set EVERYTHING up for you.

30-35% profit margins with this particular store, relatively new store though margins/earnings will increase with better suppliers, ads, proper email campaigns that I'm implementing soon. Barely scratched the surface with this one.

Leaving my review here. There was an old thread I used to get his services and this is the new one. I got the store and yes it looked absolutely amazing, Roberto runs through everything with you and makes sure you have some choice in what goes on.

I'm moving onto ads and social media right now which is pretty quick. He actually has a website with courses he made himself that you can go through at anytime to review and learn new things. It's fairly easy. Launch for ads and such are tomorrow and will update this review with any sales I get this week.

He did an amazing job truly.

Oh BOY.... back with another EXCITING update!
So after finding the winning adset(s), Roberto helped me scale my ads and make more sales.

Total sales since opening shop (10 days ago):
Spoiler (Click to View)

yup, it's officially been around 10 days since the store has opened and I've gotten one or more sales each day since then.
Sales are skyrocketing and roberto is continuing to help me find reliable suppliers and helping me improve my ads each day.

Huge vouch once again, will update again once I hit even bigger numbers ~

So Norux and I went through his numbers yesterday, he profited about 25% total, maybe a little bit more (which is normal, in fact its amazing for when you're starting out. The percentage is just gonna get better and better as i help him scale)

Just a quick update on my progress, started working with Roberto on a small side project and we were able to hit over $4k/day in sales with pretty good profit margins and this is just the beginning. Definitely a great investment on my end, he knows what he's doing-

Yes absolutely, once I update this thread it'll be filled with up-to-date records of my own stores and

their earnings, and any additional proof can be provided too. I'm planning to offer 2 different services, 1 at $500 & the other $1,000.

To summarize, the $500 would be a 2 week mentorship, where we go over everything with you from A-Z Mindset/product research/ads/optimization/scaling/funnels/backend marketing but you will be responsible for your own store, ads etc. We will only show you and teach you what works.

$1,000 option, everything above + its actually a 1 month mentorship + we'll build your store for you, with the same styles and blueprints as my own stores that have done extremely well (built literally by me, and i've build hundreds of stores so i have a pretty good idea on what works and what doesnt) + we create your ad content as well, 2 different ad videos 1 ad image + domain (pretty much everything you need will be made/prepared for you professionally. You will learn, and once you do, you will launch the best possible project with my help. Pricing this service a little higher now because 1. I've had multiple people hit 30k+/mo i think this service deserves more for what i give 2. I want to make it more expensive so not everybody can buy, and i can focus on 2-3 clients a month who're serious and qualified.

If i start talking about all the valuable shit in the $1k package then this post is literally gonna turn into a newspaper so I'm gonna just leave it for the thread update but it's gonna be really good, specially the FB ads training.

Honestly, it's different with every store. I've had a store be profitable from the start so the investment was just the store setup/business setup BUT i've also had stores that i had to spend up to $300-$500. Basically to summarize, your goal is to put your "product" in front the correct audience that buys right? Sometimes you can do that right off the bat easy, and sometimes it's hard finding your perfect audience that converts so you have to invest a little bit, run a few different ad and see what works.

Thank you for your interest btw, let me get everything setup and ready. $1k is a good chunk of money so i wanna create an actual curriculum/plan for this plan to make it as easy on me and you as possible. Give me 1-2 days.

I kid you not bro, this EXACT service. I'm offering course for $1k ---> 2k-5k store setup outside of HF. Thats one of the projects im working on on the side and that shit SELLS (the setup process is much more difficult then a HF thread though). HF people are getting a steal, not to mention in this service you work directly with me and not go thru a course you know? I'm excited to relaunch this thing.

This thread is back up, and running. I've added auto-buy so you guys don't need to wait for me. After creating the contract and placing your order you will get my Discord in the thank you email, or PM me your comfirmation code and we can get started right away.

I'm only taking about 2 premium package clients and 2-3 basic package clients. I'm 100% serious when i say this because i can only take so many clients a month. my plan is to take no more than 5 clients a month (basic & premium mixed) so get in while you can.

I have a very extensive track record and I've mentored clients up to $100k in sales so you're in good hands. Lets get started.

I hope you're not reffering to swift or whatever his name is? The dude is shady as all hell. Refuses to answer the most basic of questions publicly and points everyone to PM to the point that barely anyone has purchased and the people that have left no response as to how it went. I called him out on it and his only response was as arrogant as I expected and came with a nice -5 rep.

I've spoken with Roberto personally and as someone with no prior experience in this field, he gave me very in depth understanding from the get go and even advised that I do my own research on aspects of the course before commiting to ensure that it's actually for me. Not a lot of people/vendors would do that, he comes across as very genuine as a person and very methodical in his approach of marketing.

That being said, it wouldn't be my first time being burnt by people on HF who I felt are favourable and I have invested in so I can only speak for my experience with Roberto so far.

Is there anyway you can provide proof those sale figures are real?

No hate just i'm sure you are aware of how easy it is to fake shopify sales with fake orders these days.

and a couple of things look interesting in your screenshots:
1. Your $5.8k/day store got around 64% of your orders within 1 hour, and the first 16 hours of the day had 0 sales, and 1.1k sessions is pretty low for your $38 AOV / 6k sales
2. Your $5.8k/day store have todays 153 pending orders, so that means you fulfill orders every day? That must be hard due to time zones
3. Your $1,687 store has just a 28% cart abandonement rate, that's insanely good. You only lost

$1500 in potential checkouts in 5 days despite doing around $2000 in 2 of those days
4. You seemed to of used another screenshot of the $5800/day in your 2nd image, just with a slightly lower dollar amount

Again no hate, just would like you to clear those up as i'm sure you are aware of how many people use fake earnings

Edit: 28% could be the flipped figure, so 72% unsure how shopify calculates that. but still $1500 lost cards in 5 days is p fire

Heyy man. No worries, I literally encourage questions like this.

So the 5k store... I'm not kidding when I say we made it in 2 hours and got it to 5k. The orders we got that day were our first orders ever. The reason we blew up in few hours is because we used Influencer Ads with that particular project.

With influencer ads (which I cover in my mentorship), can help you hit even 10k+ in a few hours. Just depends on good the influencer is and how big their page is + if you hit explore tab or not.

As far as the $1.6k. The conv rate for that store was a cool 3-4%. I'm on mobile rn, but if you'd like you can add me on discord and we can go over all the proofs and images. I have video proof of every image I posted on here.

EDIT: I also do fullfill orders every day ?

Hey guys, I will be taking 1-2 clients for this month. Hit me up if you're interested in learning 1) How to find awesome products to sell 2) how to setup amazing stores that actually bring sales 3) how to advertise like a boss, drive a ton of converting traffic to your Shopify store or any other business.

I'm setting up a Facebook group for all older clients that might need support or looking to get back into ecom. A lot of us took breaks once covid hit, and soon it'll be time to bounce back. It's the best time of the year for ecom.

If you're not in my mentorship yet, or haven't been, now is the time. Seriously.

Searching for vouches but only seem to find reviews/vouches from people with no contracts.. am I missing something?

I might be interested in this, but I'm aware of how easy it is to fake earnings etc. Nothing personal against you, but there's A LOT of Dropshipping mentors which use the strategy "I will mentor you, but thats it. Its not on me if you make any money after that", and they can't be held responsible for anything. I understand you can't give guarantees as a lot of people might buy the mentoring and then put in no work and expect to make $$, then blame it on you.

Would you be able to offer something which would be fair to both of us? I have no problems putting in the work required and even record my working sessions just to keep it as proof that I am actually taking action on the things you'd teach me.. but I don't wanna be left without any guarantees in case

I make $0 after several weeks or even months.

Hi i completely understand your concern, at the end of the day this is a $500+ service so i'd be careful too. I don't know why my vouches don't show as contracted members, i've had this problem in the past too. All my vouches come from members who are 100% real and 100% contracted. I can provide full proof & details of every single one.

Furthermore i can show you live proof of my own earnings, adspend as well as my clients/mentors. With my mentorship, i mainly focus on teaching how to advertise properly, whether it's a shopify store, a restaurant, a practice etc. The money earned is a by-product of a) effort b) a good project.

I've been in this game for 8+ years, so with my mentorship i set you up with the best possible shopify store to my ability, just like my own successful stores, but at the end of the day the product might not work, you might have to test a different product. The point of the mentorship is ultimately to TEACH a skillset. With this info i've had clients who went on to make 30k/mo, and some who just didn't, they didn't go all the way.

That's why i don't usually offer guarantees. I can definitely guarantee sales, you'll get sales, i just can't guarantee you'll be profitable right off the bat. I can't even give that guarantee to myself with the brand new stores i open for my self you know?

Usually 90% of the time my stores & products do well, but i'd rather be real & truthful with you from the start and explain even the worse case scenarios so you know exactly what you're getting into, no fluff, no fake dreams.

Taking 1-2 final clients for the month of December, hit me up, last chance.

Kavalli † - *December 6, 2020, 5:13 pm*

All my clients are killing it rn, if you ever wanted to get into this and learn a real skillset then now is the time, Christmas time is hot.
Have about 3-4 people that are interested, but only taking 1-2 more people for the month of December so hit me up if you're interested.

It's starting to scale now and I am stoked!

Don't sleep on this offer..seriously. Just be patient with the process and be ready to learn :)

Gonna update this post some more when the mentorship is over ~

Edit: Wanted to upload my progress for this month with the new product we're testing!

Wanted to give an update on the month of November..I was sitting at roughly $600 on the 17th.

Here is what I ended at:

It just keeps scaling and scaling. I am so stoked to see what these numbers look like by the end of the year!

Start your stores up now for the holidays..

Prices are now back to normal, only taking 1 more premium client at 1k for the month and that's it.

Planning on increasing prices for next month to $750/$1.5k/each and only taking 3-4 clients/mo.

If you're not in and are interested, I recommend joining now. After my clients reviews start coming in this month, I WILL be increasing the price.

Absolutely, we retain about 30-40% profit margins on stores! So $1k/day is usually about $300/$400 day in profit. Some days way more, and sometimes a little bit less.

Usually with Instagram Influencer ads the profit margins are much higher compared to FB ads and

my mentorship goes over both :)

Hi, there’s 0 spots left unless you are willing to pay with BTC at the moment. Fully booked, only making exceptions for BTC clients because I’m trying to get some BTC at the moment while it’s down.

I should be able to take 1 more client in the next 3-4 days though, after I finish some workload/current clients, if you’d like to pay with Zelle, PayPal, Venmo etc.

The current price is $1k.

Due to work commitments, haven't been able to start selling yet.
Sales should be coming within the next few days (if everything turns out well).

On a different note than just sales though, the website looks amazing, lots of time has been spent organizing it, it's been very hands-free, the only thing I had to do was purchase the domain (which Kavalli was more than happy to refund) and choose a product.

Do note that the course material is still being fleshed out so if you purchase don't expect the content to be available day 1, in saying this, while it's being created Kavalli has been more than happy to assist me with the information that he's putting into the course, I prefer this style of learning as I can use examples relevant to me and get direct answers. (Though I'm sure Kavalli would still be more than happy to do this after the course is 100% completed)

I honestly do believe I'll sell this product fairly easily, though time will definitely tell.
Kavalli will assist you with finding a niche product, not sure if it's the same product that he's giving other students, though I highly doubt it is. Looking around for the product I was given/chose I found literally no competition that had a good standing.

I get very few basic clients to be honest, but my basic package is very slept on. The course has all

the info that ill be giving in my 1 on 1 mentorship + more (videos are being added every day), you still get store setup from me, and still comes with 1 week 1 on 1 support from me just in case you need help. I don't leave my clients helpless no matter which package.

But if you know your way around around an internet browser, and are just a little computer savvy (which i assume you are if you're on HF lol), then i 100% recommend the basic package.

Big update. We ran ads and when we were supposed to optimize them to make our first sale he ghosted me for an entire month. I was very patient with him (I told him it was okay to be busy but I just needed an update) as he would come online and offline (sometimes coming online to just play call of duty) and ignore my messages while the ads continued to waste my money. very unprofessional and I do not recommend buying at all. I am very tempted to make a scam report and open a Paypal claim now.

What I do in my free time is non of yours or anybody else's business. Now beat it.
Lol what you do in your free time was posted by a customer that you weren't helping. If you plan on having a service, you gotta be ready to sacrifice free time instead of wasting other peoples time. Good luck with your sales.

You clearly don't have experience running an actually in demand service/business thats difficult to deliver (we literally create brands for people and teach them how to advertise). It's called having clear hours of operation. I'm not, nor my team is expected to work outside of specific hours because it lowers the quality of the work. I've been running this service both on hf and outside it for a very long time with a high success rate and don't need the advice of some HF kid. Good luck finding a place to invest your $3k buddy, PM me if you need help.

Why would I want to do business with someone who fails to help paying customers? I like to work with people who are dedicated to their work. This hf "kid" is worth more than you'll ever be worth and has an administrative position at a leading IT firm. I'm not the one negative repping people on a forum, like that actually has any real significance in life LOL. I run two businesses, one that successfully came from here. Another is a highly profitable cleaning company that services casinos in my area. From my experience, as a business owner, I am obligated to be available at all hours. That's how you build good clientele and let people know you're reliable.

You are the definition of not reliable. Went a month without communicating with a member and then

you refund them thinking that clears the air. A MONTH. Great business practice.

How do you think I have all this money to throw at methods on here? Did I just pull it out of my ass?

By the way, where are all the vouches of people making six figures? But keep negative repping away like that has any meaning haha.

Hey guys, I'm starting this thing back up again. Taking 1 client to work with personally 1 on 1 and hopefully scale past 5-6 figures. PM me if interested.

Answer to this first and I'll be a potential customer

Hi, I don't really want to drag that conversion on in my thread but basically at that time one of my own stores popped off massively, had to do fulfillment from my own house to scale while I was looking for a warehouse, plus had a few other really high ticket clients so things were a little hectic. There was no time to help the user who we ran into that issue with (mind you, he purchased through the autobuy without even consulting me first, I did my best to work with him but at that time I wasn't even taking clients). Nevertheless he was fully refunded, and got to keep a bad ass store which probably made him a ton of money.

I'll PM you more information.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
