Thread: What Artist/Band/Album from your childhood do you still listen to?

Anima - *January 17, 2020, 2:43 pm*

Personally for myself it's the Hold Me Down Album by You Me At Six (I especially like: Hard to swallow, Underdog and The Consequence)

Well, to be honest i just love the whole album, my most fond memory of underdog is playing Call of Duty Modern Warfare 2 map Terminal. Plus in "The Consequence" the lyrics are "I've got real big plans and such bad thoughts" which I relate to aha

I just can't get enough of You Me At Six to be honest, especially Bite My Tounge

Crazy to think it's been 10 years since this album has been released.

If anyone is interested in some other music/songs that i listen to, heres a little list (I'll keep it updated with any decent songs I find or have forgotten to add:
