Thread: [SF's Pic Pack 2 - 3234 Pics \[NO SHITCASH\]](#)

set flo - March 21, 2011, 3:45 pm

Welcome to my 2nd picpac :P

I've stopped using # because it just takes WAAAAAY 2 long to upload.

I'll use it again with multiupload on my NEXT pic pack.

Multiupload links have: #, megaupload, depositfiles, zshare, uploading.com.

I only get paid if you download from filefactory so would be nice if you could help me out.

If you see a pic you want to use in your pack and it has a watermark (unlikely) then crop it by 100 pixels from the bottom.

BTS stuff means Behind the scenes so you should have some casual ones there.

Hanna

If you don't trust my files then go to <http://vscan.novirusthanks.org/> to scan for viruses. I am NOT going to scan all these files.

Simonas00 - March 24, 2011, 9:28 am

Wow thanks brother. You own broski.

set_flo - March 24, 2011, 10:10 am

Damn I just realised that most of them have watermarks even though they are VERY faded out.

If you have some sort of editing tool (like microsoft office picture manager) then just crop all by 90-100 from bottom. Sorry guys.

Oh and I've updated the screenshot by eliminating the watermark and setting it at autocorrect pic so you guys have a preview for people when u e-whore.

The pictures have watermarks stamped on them but you can easily remove them by doing a bit of Photostop.

I took a leave of absence for a while due to studies but I'm back now and will probably share some more pic packs.

NOT in the same way most people do nowadays with shitty "post and then PM b4 I share"....fuck that stuff, if I'm gonna share then I don't expect people to kiss my ass.
