This e-Book is very nicely written and designed. It has a couple of monetizing methods inside of it. "Money Come" even has a support website. The methods inside are working methods I can say that. Everything is explained step-by-step, so I can say it would work nice for beginners.
I believe the methods that are inside of this e-Book can bring you profit if you put some investment and some time in it.
The monetizing methods inside are not the most unique, I've seen them before but let's don't forget I am not a beginner in this sphere, I have 5 years of experience.

Overall: 8/10 for this product

Vouch for the user as well, seems really friendly and interesting person.

After going over my vouch copy I can say without a doubt 2020 has been a tough year for money making if you aren't on the dropship wave but there are still great methods like these around.
Best part is you could cashout multiple ways to keep your funds secure & separate if need be.

The setup is minimal compared to most but what GOOD method doesn't have a setup time?

A worth-wile investment and I have personally added it to my projects for generating weekly / monthly income.

This was a very bad book. Extremely bad. Worst purchase ever. Everything found here can be found online and it is EXTREMELY simple. Written for a 12 year old who has no understanding of business. Nothing secret or original about this at all

Thank you for your feedback.
Please note, user hasn't attempted the methods. He just read the ebook.

iamatruthseeker - *March 5, 2020, 3:50 pm*

Dude, the methods are like "hey, you can make a t-shirt shop. Did you know buying in bulk is cheaper than individual?" LOL what utter crap. This user should be banned for selling such crap

Did you expect a private method when you purchased an ebook from a non-upgraded account who also only had 1 vouch?

I'm just trying to provide money making methods with HQ support. That customer purchased and quickly decided to open a dispute without trying the methods or any effort towards them. Feels like he just read the chapters list and decided too have that opinion. While I'm trying my best to provide this eBook.

This method actually makes money. I've used the methods personally. Also, no eBooks on HF are private. And if they are, it's 100% blackhat/illegal. I provide legal methods.

There are lots of ebooks that are much more unsaturated than the methods he stated were in your book. Why would you assume that all private methods are blackhat?

I don't assume. I already know. I've been a member here for 8 years. Previous account is under investigation with the feds.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
