Hotels.com

I am selling coupons for hotels.com.
Please note that I might be a new seller, but I have the exact same vouchers as EVERYONE ELSE!
I don't mind using a MM at all. I'm selling these codes for the cheapest price.

Accepting PayPal, BTC or ETH!

200 £ Value ? £15
500 £ Value ? £40

[CHEAPEST OF ALL!]

How to book:

1.) Visit the following page: https://uk.hotels.com/?rffrid=mdp.hcom.G...PSRC=TESCO
2.) Set the currency to GBP
3.) Choose a room and click on book now.
4.) On the right side you will find a field with "Redeem voucher/Apply coupon". Enter the voucher from us there.
5.) Pay the remaining taxes / fees on the site with credit card, Paypal,…
6.) Enjoy your stay.

FAQ:
Q: Can I use more than one for the same booking?
A: No, sorry.

Q: Can I use them world wide?
A: Yes you can!

Q: Can I use them for any hotel?
A: Nearly. Just enter the filter (look at how to order) that the hotel accepts gift cards.

Q: Do they cover the hotel taxes and fees?
A: You will need to pay a 10% fee.

Q: When should I book?
A: Ideally immediately after you have received the voucher from me, so that you are on the safe side. I cant guarantee how long they will work.
