Anyone Finnish testing it ? Just want to make sure I'm not key logging my own computer during the test lol. Prob just paranoid.. but with only 16 posts and -3 rep i'm a little sceptical.

Don't download it >.< ofc its backdoored, hes uploaded this thing like 10 times, cross posting and spam posting it... He obviously is trying to infect people. Especialy since the account is now closed.

Chris Versaci - March 23, 2011, 12:05 am

That's exacly why I've been waiting to download it later lmao xD.
