Hi, I've got a vouch copy from this service, my review, from a SEO expert:

I've used this service because I had a website to test to see if it could rank so I made a throwaway website.
As it was a vouch copy I received the basic package. All that was listed was completed on the final report, it contained all the backlinks.

It seems that the guy knows a bit what he is doing, told me some errors my website had.
When I ordered this service, would be good if I received a onpage report as my site was missing many meta tags, things that when added to the website can help with the ranking.

For this price it is worth it indeed, now I just need to wait 1 week 2 for the indexing of the links, then ill make the review again to see if I achieved #1.

IXAsync - *April 24, 2020, 10:38 am*
It`s a very recommended service,
I received my SEO boost within less than a month (a new domain).

I have a Dutch site that I would like to rank. It's actually not that hard I believe since there aren't many other websites in the category on Google. Would a 1 month package suffice?

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
