If you want to sell it, you should at least protect it.

The Coon - March 24, 2011, 8:12 am

Thanks for this mate. Do you know of any free username/password lists? PM me if you do. Thanks.

maxter1999 - March 24, 2011, 8:15 am

Great find, Thanks for posting it and for free to, You ought to have a preloaded list of accounts.

iiTzUncleSam - March 24, 2011, 8:16 am

When will the pro version be out?

I want it.

The Coon - March 24, 2011, 8:51 am

I used it, and I have to login. Please provide info on the username and password if it's free.

Just crack it, the source is unprotected.

BullShooter - March 24, 2011, 8:56 am

MAKE PRO VERSION HAVE PROXY SETTINGS!! PLEASE.

CwAL - March 24, 2011, 9:06 am

Windows 7 64bit doesn't support it...

Lissi99 - March 24, 2011, 9:08 am

is it useable with proxys?

so if you logon with 200+ accounts and rating/commenting the same vids from the same ip (in short time) all your accs will shortly banned by YT

BullShooter - March 24, 2011, 10:07 am

It is great! All you need is proxy support man!

Approach - March 24, 2011, 10:12 am

Wow really awesome program I would expect more thanks on this thread.

danbirk - March 24, 2011, 10:16 am

As all other said above, aply a setting for proxys on it :)

And then it will be complete.

Theres just one problem, i cant see any start botton, since i cant minimize the program, i cant make it smaller.

So i can't start it :/

(Mar 24, 2011 08:51 AM)oJaKex Wrote: [\[CITE\]](#) I used it, and I have to login. Please provide info on the username and password if it's free.

You will have to register a free account, its only to see how many users use it.

(Mar 24, 2011 08:56 AM)ruggish Wrote: [\[CITE\]](#) MAKE PRO VERSION HAVE PROXY SETTINGS!! PLEASE.

There's a little date and time on the top left of peoples posts, check it now and again. This was released over 4 months ago.

M31ST3R - August 1, 2011, 1:17 am

What EXACTLY does this do?

Wheelz - August 3, 2011, 11:34 pm

OMG why has this been taken down, it was amazing but I forgot the password to the .zip file, does anyone know it?

badlyfar - August 4, 2011, 1:00 am

New screen pictures! please!

Gauloises88 - August 4, 2011, 1:01 am

As i know (4 month's already ago) there wasn't any password on the .rar file. There was only a login system.

But soon (i hope) there will be a new version, fully multithreaded with some additional features.

@all please look at the date.. ;)
