Thread: OSRS Anyone have money making methods?

Ricky? - *April 17, 2020, 7:36 pm*

I just recently started playing OSRS im making a 50 att g maul pure, so I have mid level stats and no skills. Any good money making methods for 1 defence pures? I got around 2m cash stack atm. I am also P2P btw. Im currently just flipping random items I find for about 10k margin per item but 8 item buy limit, slow money. Any recommendation are great, thanks.

I would suggest dragons but your stats are too low for that. Try raising your Fishing level through lobster and sell them, then fish shark once able to.

You could always try reddit and see if there is a clan there or try wyvern bone running as well

Better to fish minnows than sharks, decent gp per hour which is rare in skilling nowadays.
