flyingduck - *December 10, 2020, 5:10 am*

FREE TRIAL AVAILABLE ?
INCLUDES TELEGRAM CHANNELS ?
NO DELAY ?
24/7 SIGNAL FORWARDING ?
WORKING SINCE 2017 ?
BIGGEST CRYPTO LEAK SERVICE ?
NEW CHANNELS EVERY MONTH ?
FOREX SIGNAL LEAKS ?
AUTOMATED COPY TRADER BOT ?

Crypto Cartel has collected TOP trader crypto and forex signals in one Discord server and Telegram channels.
In our server You will find all well-known crypto traders, we add new ones every month and take out the ones with poor results, so our users can make only profitable trades.
The world's best trader information is compiled in one place when to buy when to sell, crypto news, and many more tips to help you earn.

We also offer a huge range of crypto training materials, which is worth more than 2BTC. But If We count All the LOWEST fees together
for our crypto signal channels (some of them have 3 months, some of them lifetime memberships). Then on average, You should make a payment of around 1.5 BTC + 3000 $, and approximately 80% of the subscriptions will need to renew after 1 month.
This is exactly why we are the biggest crypto signal managers
(if you see these channels in any other server, then joining them You risk Your funds and losing all access to sources, as we ban them time after time).

Many clients say that we have too many sources — but there is a reason why!? We try to add the channels our customers ask for as much as possible to dull their wishes, but in this case, not only one customer will be happy for added source, but it makes our source base bigger and bigger and this comes out as a very good opportunity for using compare strategy, the outcome of which is almost always reflected in profit (to get more info about this strategy, please join us and ask one of the server owners).

In addition to adding the channels that customers ask for, we also research the market ourselves and add the best trader groups. As well as every month, we remove those groups that have not kept their promises and whose results have been poor or inappropriate.

We also try to add expensive and exclusive learning materials as much as possible, so our users

can also learn a lot and can start to use their knowledge for trading.

We are very grateful to our loyal customers, and the reason for what we do is them. We have collected reviews and feedbacks since the first day, since 2017, which encouraged us to improve our service to get more feedback.

All feedbacks and reviews can be found on our discord server.

We are not just a signal group that issues our own signals and makes money on subscription fees. We try to show people that there is no need to spend time and money on separate groups, mostly You will lose on their given signals, plus monthly fees, around 250$ for one channel. Which in the end Could Turn Out to be a scam? We are giving the opportunity to AVOID THAT! Be Your own Signal group for Yourself by mastering, checking, and comparing to 70+ (TESTED) different trading styles, charts, and thoughts.
Think smart, be with those who know what they are doing!

Do you have a list of which signal channel produces the best results?

In other words, with so much signals being posted there has to be overlaps, right? Are each signals posted in a separate channel for that provider?

This is interesting I just feel like so many signals would get confusing ya know?

Yes, we have spreadsheets for each channel with results from the last months/years.
We weed out bad performing channels regularly.

Yes, seperate channels for each provider. We also have a trading bot.

I'll send you my discord and invite you for a trial and you can check it out for yourself. :)

I'm confused what's the difference between the family and cartel?

I am also "concerned" with the sheer amount of volume of the amount of providers, it will be somewhat confusing or arduous to pick who to follow. Is there any tracking on who is like on a hot streak?

hi there,

cartel is +21 premium singals + the option to get the notifications to your telegram

well once you take the trial, you will see that some signal providers will give you the same signals. which is a good indicator to take a trade.

we are always providing sheets at the end of the month to see who was the most profitable.

but most importantly, we have tons of training material that teaches you on how to trade on your own + 24/7 support on all the questions you might have.

hope that helps :)

Hello,

How much providers are related to cryptocurrencies, and what kind of signals are they providing (short on alt, scalp on bitcoin, ...)?
Is it possible to get a trial of 24hours? 20 minutes seems a bit short to look for past trade, make some analysis and figure out if its worth :D

Thanks!

hi there,

there are 80+ signals providers for crypto. everyone has their own strategy. we also track the monthly results from each provider in one channel.
the 20 minutes are just to see how everything is setup. i can assure you its definitely worth it. since 2017 with no negative reviews speaks for itself i guess.
hit me up on discord and i'll hook you up with the trial and you can have a look for yourself :)
cheers!

I'm interested in strictly a Crypto signaling group, but at the price point I am skeptical I will have enough room to make a large enough return off of the services, if you've got any room even for a 1 hour trial period to see what something like this entails, I would be very interested. edit or any amount of time even 20 minutes as i see youve mentioned above

Hi there,

We not only offer premium signals, you'll get the whole package. All of the signals that are coming are from proven premium signal providers.
You can check the results in our discord before trying anything. We also have tons of reviews inside our group. And the fact alone that we run from 2017 without a negative review should be soothing your concerns. Also you get bonus weeks added to your first month, which definitely should help your profits :)

We have TB's of Training and nearly 24/7 personal support. And if you're a more seasoned trader, you can also use the autotrader.

Unfortunately, we only offer 20 minutes trial maximum as this is just for making people confident that what we offer is actually no scam.

If you're interested, hit me up on discord and i'll drop you the invite.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
